# Subject Index*

A

**Abdominal pain**

Positive skin tests and Prausnitz-Küstner reactions in metabisulfite-sensitive subjects (Yang et al). 1986; 78:443-9

**Absorption**

Absorption of Theo-Dur Sprinkle with food: importance of types of meals and medication times (Pedersen). 1986; 78:653-60

Allergen absorption in the intestine: implication for food allergy in infants (Walker). 1986; 78:1003-9 (Symposium)

Effects of food on the absorption of theophylline in children (Pederson). 1986; 78:704-9 (Symposium)

Effects of food on the bioavailability of theophylline from controlled-release products in adults (Karim). 1986; 78:695-703 (Symposium)

Erratic absorption of theophylline from slow-release products in children (Szefler). 1986; 78:710-5 (Symposium)

Estimation of theophylline absorption rate by means of the Wagner-Nelson equation (Wagner). 1986; 78:681-8 (Symposium)

Physiologic considerations in drug absorption from the gastrointestinal tract (Golub et al). 1986; 78:689-94 (Symposium)

**Abstracts**

Abstracts. 1986; 78:1-4, 5-8, 9-14, 15-20, 21-4, 25-30 (Abst. vol. 72)

**Acetylcholine**

The relationship between acetylcholine-and histamine-induced constriction of large airways in normal subjects and subjects with asthma: a possible role for postreceptor mechanisms (Popa). 1986; 78:601-13

**Acquired cold urticaria syndrome**

Clinical characteristics of cold-induced systemic reactions in acquired cold urticaria syndromes: recommendations for prevention of this complication and a proposal for a diagnostic classification of cold urticaria (Wanderer et al). 1986; 78:417-23

**Acquired immunodeficiency syndrome**

Defective humoral immunity in pediatric-acquired immune deficiency syndrome (Bernstein et al). 1986; 78:9-10 (Abst. vol. 72)

In situ quantitation of lymph node helper, suppressor and cytotoxic T cell subsets in AIDS (Wood et al). 1986; 78:28 (Abst. vol. 72)

Oral desensitization to trimethoprim-sulfamethoxazole in a patient with acquired immunodeficiency syndrome (Finegold). 1986; 78:905-8

**Additives, food**

Adverse reactions to foods: relevance to psychiatric disorders (Crayton). 1986; 78:243-50 (Symposium)

Adverse reactions to tartrazine (Stevenson et al). 1986; 78:182-91 (Symposium)

*July (part 1), pp. 1-124; July (part 2), pp. 125-252; August, pp. 253-372; September (part 1), pp. 373-488; September (part 2), pp. 489-546; October (part 1), pp. 547-668; October (part 2), pp. 669-824; November (part 1), pp. 825-948; November (part 2), pp. 949-1088; December, pp. 1089-1242.

Abstracts: July, pp. 1-4; August, pp. 5-8; September, pp. 9-14; October, pp. 15-20; November, pp. 21-24; December, pp. 25-30.

A critical evaluation of clinical trials in adverse reactions to foods in adults (Atkins). 1986; 78:174-82 (Symposium)
A critical evaluation of clinical trials in adverse reactions to foods in children (Bock). 1986; 78:165-74 (Symposium)
A critical evaluation of clinical trials in reactions to sulfites (Bush et al). 1986; 78:191-202 (Symposium)
Defined versus ill-defined syndromes associated with food sensitivity (May). 1986; 78:144-8 (Symposium)
Design of clinical trials (Gordis). 1986; 78:155-60 (Symposium)
Differential diagnosis in adverse reactions to foods (Sampson). 1986; 78:212-9 (Symposium)
Effectiveness of dietary manipulation in the prevention of food allergy in infants (Zeiger et al). 1986; 78:224-38 (Symposium)
The establishment of common language concerning adverse reactions to foods and food additives (Anderson). 1986; 78:140-4 (Symposium)
Estimating prevalence of adverse reactions to foods: principles and constraints (Nichaman and McPherson). 1986; 78:148-54 (Symposium)
Food antigens and additives (Moneret-Vautrin). 1986; 78:1039-46 (Symposium)
Gluten-sensitive enteropathy: a nonallergic immune hypersensitivity of the gastrointestinal tract (Strober). 1986; 78:202-11 (Symposium)
The ingredients of foods: how they are tested and why they are selected (Munro). 1986; 78:133-9 (Symposium)
Medications and their use in the treatment of adverse reactions to foods (Sogn). 1986; 78:238-43 (Symposium)
A perspective on popular perceptions of adverse reactions to foods (Sloan and Powers). 1986; 78:127-33 (Symposium)
The placebo effect (Lasagna). 1986; 78:161-5 (Symposium)
Proper application of available laboratory tests for adverse reactions to foods and food additives (Yunginger). 1986; 78:220-3 (Symposium)
Symposium proceedings on adverse reactions to food and food additives: introduction (Simopoulos and Goldblatt). 1986; 78:125-7 (Symposium)
Symposium proceedings on adverse reactions to food and food additives: summary and recommendations (Metcalfe). 1986; 78:250-2 (Symposium)

**Adenosine**
Aminophylline exposure alters mouse bone marrow–derived mast cell adenosine responsiveness (Marquardt et al). 1986; 78:462-9
Development of safer xanthine drugs for treatment of obstructive airways disease (Persson). 1986; 78:817-24 (Symposium)
Relationships between adenosine, cyclic nucleotides, and xanthines in asthma (Church et al). 1986; 78:670-5 (Symposium)

**Aeroallergens**
Measurement of allergen concentration in the air as an aid in controlling exposure to aeroallergens (Reed et al). 1986; 78:1028-30 (Symposium)

**Aerosol**; *see also* **Inhalation**
Effect of InspirEase on the deposition of metered-dose aerosols in the human respiratory tract (Newman et al). 1986; 78:15 (Abst. vol. 72)
Immunologic response to aerosols of affinity-purified antigen in hypersensitivity pneunonitis (Stricker et al). 1986; 78:411-6
Phorbol myristate acetate lung injury and airway responsiveness to aerosol histamine in awake sheep (Dyer et al). 1986; 78:44-50

**Affinity-purified antigen**
Immunologic response to aerosols of affinity-purified antigen in hypersensitivity pneunonitis (Stricker et al). 1986; 78:411-6

**Air**
Measurement of allergen concentration in the air as an aid in controlling exposure to aeroallergens (Reed et al). 1986; 78:1028-30 (Symposium)

**Airway**; *see also* **Asthma; Hyperreactivity**
Generation and partial characterization of eosinophil chemotactic activity and neutrophil chemotactic activity during early and late-phase asthmatic response (Metzger et al). 1986; 78:282-90
Lack of acute effects of ascorbic acid on spirometry and airway responsiveness to histamine in subjects with asthma (Malo et al). 1986; 78:1153-8
Nocturnal enuresis in children with upper airway obstruction (Weider and Hauri). 1986; 78:18-9 (Abst. vol. 72)
The origin of airway hyperresponsiveness (Hargreave et al). 1986; 78:825-32 (Postgrad. course)
Overview of effects of theophylline (Persson). 1986; 78:780-7 (Symposium)
Phorbol myristate acetate lung injury and airway responsiveness to aerosol histamine in awake sheep (Dyer et al). 1986; 78:44-50
The relationship between acetylcholine-and histamine-induced constriction of large airways in normal subjects and subjects with asthma: a possible role for postreceptor mechanisms (Popa). 1986; 78:601-13

**Albuterol**
Extrapulmonary effects of maintenance therapy with theophylline and inhaled albuterol in patients with chronic asthma (Joad et al). 1986; 78:1147-53
The use of a single daily theophylline dose and metered-dose albuterol in asthma treatment (Busse et al). 1986; 78:577-82

**Allergen**; *see also* **Antigen**; specific allergen
Allergen absorption in the intestine: implication for food allergy in infants (Walker). 1986; 78:1003-9 (Symposium)
Allergens in Hymenoptera venom XVI: studies of the structures and cross-reactivities of vespid venom phospholipases (Hoffman). 1986; 78:337-43
Antigens and allergens of *Aspergillus fumigatus*. I. Characterization by quantitative immunoelectrophoretic techniques (Longbottom and Austwick). 1986; 78:9-17
Antigens and allergens of *Aspergillus fumigatus*. II. Their further identification and partial characterization of a major allergen (Ag 3) (Longbottom). 1986; 78:18-24
Contact allergens and prevention of contact dermatitis (Fregert). 1986; 78:1071-2 (Symposium)
Cross-reacting and species-specific determinants on a major allergen from *Dermatophagoides pteronyssinus* and *D. farinae*: development of a radioimmunoassay for antigen $P_1$ equivalent in house dust and dust mite extracts (Platts-Mills et al). 1986; 78:398-407
Development of IgE and IgG antibodies to food and inhalant allergens in children at risk of allergic disease (Rowntree et al). 1986; 78:6 (Abst. vol. 72)
Direct in vivo evidence for mast cell degranulation during allergen-induced reactions in man (Gomez et al). 1986; 78:637-45
Dose of cat (*Felis domesticus*) allergen 1 (*Fel d* 1) that induces asthma (Van Metre et al). 1986; 78:62-75
Drugs as allergens (de Weck). 1986; 78:1047-50 (Symposium)
Early allergen contacts (Björkstén). 1986; 78:1010-2 (Symposium)
The effect of single and multiple dose therapy with azelastine on the immediate asthmatic response to allergen provocation testing (Ollier et al). 1986; 78:358-64
Identification and partial purification of species-specific allergens from *Triatoma protracta* (Heteroptera:Reduviidae) (Chapman et al). 1986; 78:436-42
Immunologic and biochemical properties of the major mouse urinary allergen (Mus m 1) (Lorusso et al). 1986; 78:928-37

Indoor allergens (Lowenstein et al). 1986; 78:1035-9 (Symposium)
Induction of immunologic tolerance: desensitization to occupational allergens (Turk et al). 1986; 78:1082-5 (Symposium)
Late bronchial response and increase in methacholine hyperresponsiveness after exercise and distilled water challenge in atopic subjects with asthma with dual asthmatic response to allergen inhalation (Foresi et al). 1986; 78:1130-9
Measurement of allergen concentration in the air as an aid in controlling exposure to aeroallergens (Reed et al). 1986; 78:1028-30 (Symposium)
Species-specific allergens from the salivary glands of Triatominae (Heteroptera: Reduviidae) (Marshall et al). 1986; 78:430-5
Specific allergen-induced Epstein-Barr nuclear antigen–positive B cells from patients with chronic-active Epstein-Barr virus infections (Olson et al). 1986; 78:315-20
Specific IgE to food and inhalant allergens in intestinal washings of children affected by atopic eczema (Marcucci et al). 1986; 78:8 (Abst. vol. 72)
Specific IgE response before and after rush immunotherapy with a standardized allergen or allergoid in grass-pollen allergy (Bousquet et al). 1986; 78:25-6 (Abst. vol. 72)
A study of the human immune response to *Lolium perenne* (Rye) pollen and its components, *Lol p* I and *Lol p* II (Rye I and Rye II). I. Prevalence of reactivity to the allergens and correlations among skin test, IgE antibody, and IgG antibody data (Freidhoff et al). 1986; 78:1190-1201

**Allergic rhinitis**; *see* **Rhinitis**

**Allergoid**
Specific IgE response before and after rush immunotherapy with a standardized allergen or allergoid in grass-pollen allergy (Bousquet et al). 1986; 78:25-6 (Abst. vol. 72)

**Allergy**; *see* specific disorder or allergen

**Alveolar macrophage**
Modulation of natural killer cell function by human alveolar macrophages (Weissman et al). 1986; 78:571-7

**American Academy of Allergy and Immunology**
Allergy and clinical immunology—2001 (Salvaggio). 1986; 78:253-68 (Pres. address)

**Aminophylline**; *see* **Theophylline**

**Anaphylactoid reaction**
Anaphylactoid reactions associated with parenteral cyclosporine use: possible role of cremophor EL (Howrie et al). 1986; 78:7-8 (Abst. vol. 72)
Anaphylactoid reactions to tolmetin after interrupted dosage (Bretza and Novey). 1986; 78:19 (Abst. vol. 72)
Measurement of $N^{\alpha}$-methylhistamine concentrations in plasma and urine as a parameter for histamine release during anaphylactoid reactions (Keyzer et al). 1986; 78:20 (Abst. vol. 72)

**Anaphylaxis**
Biphasic and protracted anaphylaxis (Stark and Sullivan). 1986; 78:76-83
Comparison of subcutaneous injection and high-dose inhalation of epinephrine—implications for self-treatment to prevent anaphylaxis (Heilborn et al). 1986; 78:1174-9
Protamine-induced fatal anaphylaxis (Sharath et al). 1986; 78:3 (Abst. vol. 72)

**Angioedema**
Cl esterase inhibitor: clinical clues to the pathophysiology of angioedema (Frank). 1986; 78:848-50 (Editorial)
Danazol-induced cystitis: an undescribed source of hematuria in patient with hereditary angioneurotic edema (Andriole et al). 1986; 78:23-4 (Abst. vol. 72)
Episodic angioedema and hypereosinophilia in childhood (Hill et al). 1986; 78:122-3
Immune complexes in hereditary angioneurotic edema (HANE) (D'Amelio et al). 1986; 78:486-7 (Letter)
The value of rocket immunoelectrophoresis for C4 activation in the evaluation of patients with angioedema or C1-inhibitor deficiency (Zuraw et al). 1986; 78:1115-20

**Ant**
Seasonal variation in antigens of the imported fire ant *Solenopsis invicta* (Hannan et al). 1986; 78:331-6

**Antacids**
Therapeutic consequences of drug interactions with theophylline pharmacokinetics (Jonkman). 1986; 78:736-42 (Symposium)

**Antiasthmatic drugs, nonbronchodilator**; *see* **Nonbronchodilator antiasthmatic drugs**

**Antibiotics**
T cell reactivity to penicillin: phenotypic analysis of in vitro activated cell subsets (Koponen et al). 1986; 78:645-52
Therapeutic consequences of drug interactions with theophylline pharmacokinetics (Jonkman). 1986; 78:736-42 (Symposium)

**Antibody**; *see also* specific antibody
Anti-idiotypic antibody vaccine for type B viral hepatitis in chimpanzees (Kennedy et al). 1986; 78:5-6 (Abst. vol. 72)
Detection of antibodies to proteases used in laundry detergents by the radioallergosorbent test (Dor et al). 1986; 78:877-86
Detection of proteins in wheat flour extracts that bind human IgG, IgE, and mouse monoclonal antibodies (Theobald et al). 1986; 78:470-7
The human immune response to the OKT3 monoclonal antibody is oligoclonal (Chatenoud et al). 1986; 78:28-9 (Abst. vol. 72)
IgE antibodies to *Staphylococcus aureus*: prevalence in patients with atopic dermatitis (Friedman et al). 1986; 78:10 (Abst. vol. 72)
Increased concentrations of milk antibodies in recurrent pulmonary aspiration in infants and young children (Muller et al). 1986; 78:18 (Abst. vol. 72)
Perinatal-maternal relationships in the regulation of IgE antibody responsiveness (Jarrett and Hall). 1986; 78:1000-3 (Symposium)
Relationships between epitopes on IgE recognized by defined monoclonal antibodies and by the $Fc_{\varepsilon}$ receptor on basophils (Baniyash et al). 1986; 78:17 (Abst. vol. 72)
Serum antibody responses to indigenous oral mucosal antigens and selected laboratory-maintained bacteria in recurrent aphthous ulceration (Lindemann et al). 1986; 78:7 (Abst. vol. 72)
Serum IgA antibodies to *Aspergillus fumigatus* in various stages of allergic bronchopulmonary aspergillosis (Gutt et al). 1986; 78:98-101
A study of the human immune response to *Lolium perenne* (Rye) pollen and its components, *Lol p* I and *Lol p* II (Rye I and Rye II). I. Prevalence of reactivity to the allergens and correlations among skin test, IgE antibody, and IgG antibody data (Freidhoff et al). 1986; 78:1190-1201
Suppression of IgE and non-IgE antibodies to industrial chemicals by conjugates of polyvinyl alcohol (Wei et al). 1986; 78:1066-70 (Symposium)

**Anticholinergic**
Oxitropium bromide: a new anticholinergic bronchodilator (Skorodin et al). 1986; 78:12 (Abst. vol. 72)

**Antigen**; *see also* **Allergen**
Antigens and allergens of *Aspergillus fumigatus*. I. Characterization by quantitative immunoelectrophoretic techniques (Longbottom and Austwick). 1986; 78:9-17
Antigens and allergens of *Aspergillus fumigatus*. II. Their further identification and partial characterization of a major allergen (Ag 3) (Longbottom). 1986; 78:18-24
Bronchoalveolar mast cells in extrinsic asthma: a mechanism for

the initiation of antigen-specific bronchoconstriction (Flint et al). 1986; 78:5 (Abst. vol. 72)

Cross-reacting and species-specific determinants on a major allergen from *Dermatophagoides pteronyssinus* and *D. farinae*: development of a radioimmunoassay for antigen $P_1$ equivalent in house dust and dust mite extracts (Platts-Mills et al). 1986; 78:398-407

Cutaneous mast cell heterogeneity: response to antigen in atopic dogs (Becker et al). 1986; 78:937-42

Detection of antigens in lung biopsies by immunoperoxidase staining in extrinsic allergic bronchiolo-alveolitis (EABA) (Reijula and Sutinen). 1986; 78:10 (Abst. vol. 72)

Enzyme profile and immunochemical characterization of *Aspergillus fumigatus* antigens (Kurup et al). 1986; 78:1166-73

Food antigens and additives (Moneret-Vautrin). 1986; 78:1039-46 (Symposium)

Humoral immunity to dietary antigens in healthy adults (Husby et al). 1986; 78:16-7 (Abst. vol. 72)

Immunologic response to aerosols of affinity-purified antigen in hypersensitivity pneunonitis (Stricker et al). 1986; 78:411-6

Passage of undegraded dietary antigen into the blood of healthy adults (Husby et al). 1986; 78:7-8 (Abst. vol. 72)

Seasonal variation in antigens of the imported fire ant *Solenopsis invicta* (Hannan et al). 1986; 78:331-6

Serum antibody responses to indigenous oral mucosal antigens and selected laboratory-maintained bacteria in recurrent aphthous ulceration (Lindemann et al). 1986; 78:7 (Abst. vol. 72)

SIgD− and sIgD+ B cells responding to thymus-independent antigens have a different lymphokine requirement (Waldschmidt et al). 1986; 78:2 (Abst. vol. 72)

Specific allergen-induced Epstein-Barr nuclear antigen–positive B cells from patients with chronic-active Epstein-Barr virus infections (Olson et al). 1986; 78:315-20

**Antihistamine**

Medications and their use in the treatment of adverse reactions to foods (Sogn). 1986; 78:238-43 (Symposium)

Multicenter, double-blind, placebo-controlled trial of terfenadine suspension in the treatment of fall-allergic rhinitis in children (Guill et al). 1986; 78:4-9

**Anti-idiotypic antibody vaccine**

Anti-idiotypic antibody vaccine for type B viral hepatitis in chimpanzees (Kennedy et al). 1986; 78:5-6 (Abst. vol. 72)

**Anti-*Staphylococcus aureus*–specific IgE**

Anti-*Staphylococcus aureus*–specific IgE in atopic dermatitis (Motala et al). 1986; 78:583-9

**Anxiety disorder**

Adverse reactions to foods: relevance to psychiatric disorders (Crayton). 1986; 78:243-50 (Symposium)

**Apartame**

Aspartame-induced urticaria (Kulczycki A). 1986; 78:13-4 (Abst. vol. 72)

**Aphthous ulcer**

Serum antibody responses to indigenous oral mucosal antigens and selected laboratory-maintained bacteria in recurrent aphthous ulceration (Lindemann et al). 1986; 78:7 (Abst. vol. 72)

**Arthritis**

IgE deposition in normal skin of patients with rheumatoid arthritis in relation to clinical and laboratory findings (De Clerck et al). 1986; 78:11 (Abst. vol. 72)

**Ascorbic acid**

Lack of acute effects of ascorbic acid on spirometry and airway responsiveness to histamine in subjects with asthma (Malo et al). 1986; 78:1153-8

***Aspergillus fumigatus***

Antigens and allergens of *Aspergillus fumigatus*. I. Characterization by quantitative immunoelectrophoretic techniques (Longbottom and Austwick). 1986; 78:9-17

Antigens and allergens of *Aspergillus fumigatus*. II. Their further identification and partial characterization of a major allergen (Longbottom). 1986; 78:18-24

Enzyme profile and immunochemical characterization of *Aspergillus fumigatus* antigens (Kurup et al). 1986; 78:1166-73

Serum IgA antibodies to *Aspergillus fumigatus* in various stages of allergic bronchopulmonary aspergillosis (Gutt et al). 1986; 78:98-101

**Aspiration**

Increased concentrations of milk antibodies in recurrent pulmonary aspiration in infants and young children (Muller et al). 1986; 78:18 (Abst. vol. 72)

**Aspirin**

Estimating prevalence of adverse reactions to foods: principles and constraints (Nichaman and McPherson). 1986; 78:148-54 (Symposium)

**Astemizole**

The treatment of mild to severe chronic idiopathic urticaria with astemizole: double-blind and open trials (Fox et al). 1986; 78:1159-66

**Asthma**; *see also* **Nonbronchodilator antiasthmatic drugs**

Abnormalities of basophil "releasability" in atopic and asthmatic individuals (Plaut et al). 1986; 78:968-73 (Symposium)

Abstracts. 1986; 78:1, 5, 9, 15, 21-2, 25-6 (vol. 72)

Basophil immunoglobulin receptors in asthmatics under immunoscanning electron microscopy (Kimura et al). 1986; 78:1 (Abst. vol. 72)

Bronchoalveolar mast cells in extrinsic asthma: a mechanism for the initiation of antigen-specific bronchoconstriction (Flint et al). 1986; 78:5 (Abst. vol. 72)

Characteristics and prognostic value of morning dipping of peak expiratory flow rate in stable asthmatic subjects (Bellis et al). 1986; 78:1 (Abst. vol. 72)

A critical evaluation of clinical trials in reactions to sulfites (Bush et al). 1986; 78:191-202 (Symposium)

Dose of cat (*Felis domesticus*) allergen 1 (*Fel d* 1) that induces asthma (Van Metre et al). 1986; 78:62-75

The effect of single and multiple dose therapy with azelastine on the immediate asthmatic response to allergen provocation testing (Ollier et al). 1986; 78:358-64

Extrapulmonary effects of maintenance therapy with theophylline and inhaled albuterol in patients with chronic asthma (Joad et al). 1986; 78:1147-53

Generation and partial characterization of eosinophil chemotactic activity and neutrophil chemotactic activity during early and late-phase asthmatic response (Metzger et al). 1986; 78:282-90

Helper and suppressor T cell subsets in 138 asthmatic children undergoing different therapeutic trials (Lison et al). 1986; 78:18 (Abst. vol. 72)

The impact of health education on frequency and cost of health care use by low income children with asthma (Clark et al). 1986; 78:108-15

An improved protocol for the use of troleandomycin (TAO) in the treatment of steroid-requiring asthma (Wald et al). 1986; 78:36-43

Lack of acute effects of ascorbic acid on spirometry and airway responsiveness to histamine in subjects with asthma (Malo et al). 1986; 78:1153-8

Large lungs after childhood asthma: a consequence of enlarged airspaces (Greaves and Colebatch). 1986; 78:21 (Abst. vol. 72)

Late bronchial response and increase in methacholine hyperresponsiveness after exercise and distilled water challenge in atopic subjects with asthma with dual asthmatic response to allergen inhalation (Foresi et al). 1986; 78:1130-9
Myocardial specific creatine phosphokinase isoenzyme elevation in children with asthma treated with intravenous isoproterenol (Maguire et al). 1986; 78:631-6
Nasal-sinus-pulmonary reflexes and bronchial asthma (McFadden). 1986; 78:1-3 (Editorial)
Occupational asthma (Butcher and Salvaggio). 1986; 78:547-56 (CME article)
Occupational asthma due to chemical agents (Salvaggio et al). 1986; 78:1053-8 (Symposium)
Occupational asthma in sawmills of eastern Canada and United States (Malo et al). 1986; 78:392-8
Outcome of pregnancy in women requiring corticosteroids for severe asthma (Fitzsimons et al). 1986; 78:349-53
Phthallic anhydride-induced occupational asthma (Wernfors et al). 1986; 78:21-2 (Abst. vol. 72)
Placebo-controlled double-blind food challenge in asthma (Onorato et al). 1986; 78:1139-46
Predictive accuracy of late asthmatic reaction to *Dermatophagoides pteronyssinus* (Crimi et al). 1986; 78:908-13
Pulmonary response to nasal-challenge testing of atopic subjects with stable asthma (Schumacher et al). 1986; 78:30-5
Rectus sheath hematoma complicating an exacerbation of asthma (Lee et al). 1986; 78:290-2
Red wine asthma: a controlled challenge study (Dahl et al). 1986; 78:1126-9
The relationship between acetylcholine-and histamine-induced constriction of large airways in normal subjects and subjects with asthma: a possible role for postreceptor mechanisms (Popa). 1986; 78:601-13
Relationships between adenosine, cyclic nucleotides, and xanthines in asthma (Church et al). 1986; 78:670-5 (Symposium)
Seasonal asthma in northern California: allergic causes and efficacy of immunotherapy (Reid et al). 1986; 78:590-600
Sensitivity to hydrocortisone is a relevant factor in the immunoendocrine relationship. I. The cell-mediated immune response in relation to blood levels and in vitro immunosuppressive effects of hydrocortisone in patients with asthma and healthy control subjects (Weller et al). 1986; 78: 423-30
Therapeutic effect and dosing strategies for theophylline in the treatment of chronic asthma (Weinberger and Hendeles). 1986; 78:762-8 (Symposium)
The use of a single daily theophylline dose and metered-dose albuterol in asthma treatment (Busse et al). 1986; 78:577-82
Within-and between-day reproducibility of isocapnic cold air challenges in subjects with asthma (Tessier et al). 1986; 78:379-87
Yoga for bronchial asthma: a controversial story (Nagaranthna and Nagenora). 1986; 78:9 (Abst. vol. 72)

**Atmosphere**; *see also* **Air**
Smoking and atmospheric pollution (Davies and Sheinman). 1986; 78:1031-5 (Symposium)

**Atopy**
Abnormalities of basophil "releasability" in atopic and asthmatic individuals (Plaut et al). 1986; 78:968-73 (Symposium)
Advances in understanding of mechanisms of IgE disregulation in atopy by the application of in vitro methods (Ricci et al). 1986; 78:988-94 (Symposium)
Anti-*Staphylococcus aureus*-specific IgE in atopic dermatitis (Motala et al). 1986; 78:583-9
IgE antibodies to *Staphylococcus aureus*: prevalence in patients with atopic dermatitis (Friedman et al). 1986; 78:10 (Abst. vol. 72)
Immunopharmacology of the atopic diseases (Hanifin et al). 1986; 78:4 (Abst. vol. 72)
The morphologic characteristics of dry skin in atopic dermatitis (Uehara and Miyauchi). 1986; 78:12 (Abst. vol. 72)
Natural history of "atopy" (Pepys). 1986; 78:959-61 (Symposium)
Pulmonary response to nasal-challenge testing of atopic subjects with stable asthma (Schumacher et al). 1986; 78:30-5
Specific IgE to food and inhalant allergens in intestinal washings of children affected by atopic eczema (Marcucci et al). 1986; 78:8 (Abst. vol. 72)
Staphylococcal colonization, infection, and atopic dermatitis—association not etiology (Hanifin and Homburger). 1986; 78:563-6 (Editorial)

**Atropine sulfate**
Interaction of verapamil hydrochloride and atropine sulfate on histamine-induced bronchoconstriction (Krivoy et al). 1986; 78:4 (Abst. vol. 72)

**Autoimmunity**
Induction of suppressor cells specific for AChR in experimental autoimmune myasthenia gravis (McIntosh and Drachman). 1986; 78:11-12 (Abst. vol. 72)
A serum-derived molecule from autoimmune viable motheaten mice potentiates the action of a B cell maturation factor (Sidman et al). 1986; 78:16 (Abst. vol. 72)

**Azelastine**
The effect of single and multiple dose therapy with azelastine on the immediate asthmatic response to allergen provocation testing (Ollier et al). 1986; 78:358-64

**B**

**B cell**; *see also* **Lymphocyte**
A serum-derived molecule from autoimmune viable motheaten mice potentiates the action of a B cell maturation factor (Sidman et al). 1986; 78:16 (Abst. vol. 72)
SIgD− and sIgD+ B cells responding to thymus-independent antigens have a different lymphokine requirement (Waldschmidt et al). 1986; 78:2 (Abst. vol. 72)

**Bacteria**
Recurrent sinupulmonary infection and impaired antibody response to bacterial capsular polysaccharide antigen in children with selective IgG-subclass deficiency (Umetsu et al). 1986; 78:12-3 (Abst. vol. 72)
Serum antibody responses to indigenous oral mucosal antigens and selected laboratory-maintained bacteria in recurrent aphthous ulceration (Lindemann et al). 1986; 78:7 (Abst. vol. 72)

**Barbiturates**
Therapeutic consequences of drug interactions with theophylline pharmacokinetics (Jonkman). 1986; 78:736-42 (Symposium)

**Basidiomycete mycelia**
Basidiomycete mycelia and spore-allergen extracts: skin test reactivity in adults with symptoms of respiratory allergy (Lehrer et al). 1986; 78:478-85

**Basophil**
Abnormalities of basophil "releasability" in atopic and asthmatic individuals (Plaut et al). 1986; 78:968-73 (Symposium)
Basophilic cell progenitors, nasal metachromatic cells, and peripheral blood basophils in ragweed-allergic patients (Otsuka et al). 1986; 78:365-71
Basophil immunoglobulin receptors in asthmatics under immunoscanning electron microscopy (Kimura et al). 1986; 78:1 (Abst. vol. 72)
Conjunctival basophil hypersensitivity in the guinea pig (Allansmith et al). 1986; 78:919-27

Control mechanisms of human basophil releasability (Marone et al). 1986; 78:974-80 (Symposium)
Enhanced basophil histamine release to concanavalin A in allergic rhinitis (Busse et al). 1986; 78:90-7
Relationships between epitopes on IgE recognized by defined monoclonal antibodies and by the $Fc_\varepsilon$ receptor on basophils (Baniyash et al). 1986; 78:17 (Abst. vol. 72)
The role of hydrogen peroxide in basophil histamine release and the effect of selected flavonoids (Ogasawara et al). 1986; 78:321-8

**Beclomethasone dipropionate**
Outcome of pregnancy in women requiring corticosteroids for severe asthma (Fitzsimons et al). 1986; 78:349-53

**Bee**
Combined active and passive immunotherapy in honeybee-sting allergy (Müller et al). 1986; 78:115-22
Lack of responsiveness of beekeeper mononuclear cells to in vitro stimulation with pure bee venom (Lomnitzer and Rabson). 1986; 78:25-30

**Bermuda grass**
The preparation and testing of the proposed International Reference (IRP) Bermuda grass (*Cynodon dactylon*)–pollen extract (Baer et al). 1986; 78:624-31

**Beta agonist**
Adverse effects of theophylline–beta agonist interactions (Nicklas and Balazs). 1986; 78:806-11 (Symposium)
Therapeutic consequences of drug interactions with theophylline pharmacokinetics (Jonkman). 1986; 78:736-42 (Symposium)

**Bioavailability**
Absorption of Theo-Dur Sprinkle with food: importance of types of meals and medication times (Pedersen). 1986; 78:653-60
Effects of food on the bioavailability of theophylline from controlled-release products in adults (Karim). 1986; 78:695-703 (Symposium)
Formulation of controlled-release products (Robinson and Gauger). 1986; 78:676-81 (Symposium)

**Biochemistry**
Immunologic and biochemical properties of the major mouse urinary allergen (Mus m 1) (Lorusso et al). 1986; 78:928-37

**Biopsy**
Detection of antigens in lung biopsies by immunoperoxidase staining in extrinsic allergic bronchiolo-alveolitis (EABA) (Reijula and Sutinen). 1986; 78:10 (Abst. vol. 72)

**Bone marrow**
Aminophylline exposure alters mouse bone marrow–derived mast cell adenosine responsiveness (Marquardt et al). 1986; 78:462-9

**Bovine collagen implant**
The association of HLA and immune responses to bovine collagen implants (Vanderveen et al). 1986; 78:28 (Abst. vol. 72)

**Breast feeding**
Effectiveness of dietary manipulation in the prevention of food allergy in infants (Zeiger et al). 1986; 78:224-38 (Symposium)

**Bronchial responsiveness**; *see also* **Bronchoprovocation; Hyperreactivity**
Effect of nifedipine on hyperreactive bronchial responses to methacholine (Moscato et al). 1986; 78:3 (Abst. vol. 72)
Exposure to a sensitizing occupational agent can cause a long-lasting increase in bronchial responsiveness to histamine in the absence of significant changes in airway caliber (Cartier et al). 1986; 78:1185-9
Late bronchial response and increase in methacholine hyperresponsiveness after exercise and distilled water challenge in atopic subjects with asthma with dual asthmatic response to allergen inhalation (Foresi et al). 1986; 78:1130-9
Plicatic acid–specific IgE and nonspecific bronchial hyperresponsiveness in western red-cedar workers (Vedal et al). 1986; 78:1103-9

**Bronchiolo-alveolitis**
Detection of antigens in lung biopsies by immunoperoxidase staining in extrinsic allergic bronchiolo-alveolitis (EABA) (Reijula and Sutinen). 1986; 78:10 (Abst. vol. 72)

**Bronchoalveolar mast cells**
Bronchoalveolar mast cells in extrinsic asthma: a mechanism for the initiation of antigen-specific bronchoconstriction (Flint et al). 1986; 78:5 (Abst. vol. 72)

**Bronchoconstriction**; *see also* **Airway; Asthma**
Bronchoalveolar mast cells in extrinsic asthma: a mechanism for the initiation of antigen-specific bronchoconstriction (Flint et al). 1986; 78:5 (Abst. vol. 72)
Bronchodilatation and attenuation of exercise-induced bronchospasm by PY 108-068, a new calcium antagonist (Ben-Dov et al). 1986; 78:14 (Abst. vol. 72)
Evidence for substance P-immunoreactive spinal afferents that mediate bronchoconstriction (Saria et al). 1986; 78:24 (Abst. vol. 72)
Increase in gastroesophageal reflux during methacholine-induced bronchospasm (Moote et al). 1986; 78:619-23
Interaction of verapamil hydrochloride and atropine sulfate on histamine-induced bronchoconstriction (Krivoy et al). 1986; 78:4 (Abst. vol. 72)
The relationship between acetylcholine-and histamine-induced constriction of large airways in normal subjects and subjects with asthma: a possible role for postreceptor mechanisms (Popa). 1986; 78:601-13

**Bronchodilator**
Bronchodilatation and attenuation of exercise-induced bronchospasm by PY 108-068, a new calcium antagonist (Ben-Dov et al). 1986; 78:14 (Abst. vol. 72)
Effect of InspirEase on the deposition of metered-dose aerosols in the human respiratory tract (Newman et al). 1986; 78:15 (Abst. vol. 72)
Oxitropium bromide: a new anticholinergic bronchodilator (Skorodin et al). 1986; 78:12 (Abst. vol. 72)
Therapeutic consequences of drug interactions with theophylline pharmacokinetics (Jonkman). 1986; 78:736-42 (Symposium)

**Bronchoprovocation**
Report of the AAAI task force on guidelines for clinical investigation of nonbronchodilator antiasthmatic drugs: the role of bronchoprovocation (Hargreave and Fink). 1986; 78:517-24 (Workshop)

**Bronchopulmonary aspergillosis**
Antigens and allergens of *Aspergillus fumigatus*. I. Characterization by quantitative immunoelectrophoretic techniques (Longbottom and Austwick). 1986; 78:9-17
Antigens and allergens of *Aspergillus fumigatus*. II. Their further identification and partial characterization of a major allergen (Ag 3) (Longbottom). 1986; 78:18-24
Serum IgA antibodies to *Aspergillus fumigatus* in various stages of allergic bronchopulmonary aspergillosis (Gutt et al). 1986; 78:98-101

**Bronchospasm**; *see* **Bronchoconstriction; Hyperreactivity**

**C**

**C1 esterase**
Acquired C1 esterase-inhibitor deficiency: case report with emphasis on complement and kallikrein activation during two patterns of clinical manifestations (Henteges et al). 1986; 78:860-7
C1 esterase inhibitor: clinical clues to the pathophysiology of angioedema (Frank). 1986; 78:848-50 (Editorial)

**C1-inhibitor and C4**
The value of rocket immunoelectrophoresis for C4 activation in the evaluation of patients with angioedema or C1-inhibitor deficiency (Zuraw et al). 1986; 78:1115-20
**Calcium antagonist**
Bronchodilatation and attenuation of exercise-induced bronchospasm by PY 108-068, a new calcium antagonist (Ben-Dov et al). 1986; 78:14 (Abst. vol. 72)
**Cancer**
Decreased skin response to intradermal histamine in cancer patients (Burtin et al). 1986; 78:83-9
**Candidiasis**
Candidiasis hypersensitivity syndrome (Anderson et al). 1986; 78:271-3 (Position statement)
**Cardiac function**
Theophylline improves global cardiac function and reduces dyspnea in chronic obstructive lung disease (Matthay and Mahler). 1986; 78:793-9 (Symposium)
**Carotid body**
Carotid body resection (Anderson et al). 1986; 78:273-5 (Position statement)
**Cat**
Dose of cat (*Felis domesticus*) allergen 1 (*Fel d* 1) that induces asthma (Van Metre et al). 1986; 78:62-75
**Catecholamine**
Therapeutic concentrations of theophylline and enprofylline potentiate catecholamine effects and inhibit leukocyte activation (Nielson et al). 1986; 78:660-7
**Cat-scratch disease**
Cell-mediated immunity in cat-scratch disease (Gerber et al). 1986; 78:887-90
**Celiac disease**
Gluten-sensitive enteropathy: a nonallergic immune hypersensitivity of the gastrointestinal tract (Strober). 1986; 78:202-11 (Symposium)
**Cellular abnormality**
Cellular abnormalities in patients with elevated serum IgE levels (Geha and Leung). 1986; 78:995-9 (Symposium)
**Chemicals**
The ingredients of foods: how they are tested and why they are selected (Munro). 1986; 78:133-9 (Symposium)
Occupational asthma due to chemical agents (Salvaggio et al). 1986; 78:1053-8 (Symposium)
**Chemotaxis**
Generation and partial characterization of eosinophil chemotactic activity and neutrophil chemotactic activity during early and late-phase asthmatic response (Metzger et al). 1986; 78:282-90
**Child**
Abstracts. 1986; 78:12-3, 18-9 (vol. 72)
Adverse reactions to foods: relevance to psychiatric disorders (Crayton). 1986; 78:243-50 (Symposium)
A critical evaluation of clinical trials in adverse reactions to foods in children (Bock). 1986; 78:165-74 (Symposium)
Development of IgE and IgG antibodies to food and inhalant allergens in children at risk of allergic disease (Rowntree et al). 1986; 78:6 (Abst. vol. 72)
Differential diagnosis in adverse reactions to foods (Sampson). 1986; 78:212-9 (Symposium)
Effects of food on the absorption of theophylline in children (Pederson). 1986; 78:704-9 (Symposium)
Episodic angioedema and hypereosinophilia in childhood (Hill et al). 1986; 78:122-3
Helper and suppressor T cell subsets in 138 asthmatic children undergoing different therapeutic trials (Lison et al). 1986; 78:18 (Abst. vol. 72)
Immunity against diphtheria 25 to 30 years after primary vaccination in childhood (Kjeldsen et al). 1986; 78:1-2 (Abst. vol. 72)
The impact of health education on frequency and cost of health care use by low income children with asthma (Clark et al). 1986; 78:108-15
Increased concentrations of milk antibodies in recurrent pulmonary aspiration in infants and young children (Muller et al). 1986; 78:18 (Abst. vol. 72)
Large lungs after childhood asthma: a consequence of enlarged airspaces (Greaves and Colebatch). 1986; 78:21 (Abst. vol. 72)
Multicenter, double-blind, placebo-controlled trial of terfenadine suspension in the treatment of fall-allergic rhinitis in children (Guill et al). 1986; 78:4-9
Myocardial specific creatine phosphokinase isoenzyme elevation in children with asthma treated with intravenous isoproterenol (Maguire et al). 1986; 78:631-6
Nocturnal enuresis in children with upper airway obstruction (Weider and Hauri). 1986; 78:18-9 (Abst. vol. 72)
Pharmacologic effects of theophylline in the newborn (Aranda et al). 1986; 78:773-80 (Symposium)
Predictive value of tests in childhood allergy (Bousquet and Kjellman). 1986; 78:1019-22 (Symposium)
Preventive measures in early childhood allergy (Michel et al). 1986; 78:1022-7 (Symposium)
Report of the AAAI task force on guidelines for clinical investigation of nonbronchodilator antiasthmatic drugs: special pediatric problems (Siegel et al). 1986; 78:534-40 (Workshop)
Specific IgE to food and inhalant allergens in intestinal washings of children affected by atopic eczema (Marcucci et al). 1986; 78:8 (Abst. vol. 72)
**Chinese restaurant syndrome**
Estimating prevalence of adverse reactions to foods: principles and constraints (Nichaman and McPherson). 1986; 78:148-54 (Symposium)
**Cholinergic urticaria**
Combined cold-and heat-induced cholinergic urticaria (Farnam et al). 1986; 78:353-7
**Cimetidine**
Therapeutic consequences of drug interactions with theophylline pharmacokinetics (Jonkman). 1986; 78:736-42 (Symposium)
**Clinical ecology**
Clinical ecology (Anderson et al). 1986; 78:269-71 (Position statement)
**Clinical trials**
Design of clinical trials (Gordis). 1986; 78:155-60 (Symposium)
**Cold air**
Airway responses to hyperventilation of cold dry air: duration of protection by cromolyn sodium (Juniper et al). 1986; 78:387-91
Within-and between-day reproducibility of isocapnic cold air challenges in subjects with asthma (Tessier et al). 1986; 78:379-87
**Cold-induced urticaria**
Clinical characteristics of cold-induced systemic reactions in acquired cold urticaria syndromes: recommendations for prevention of this complication and a proposal for a diagnostic classification of cold urticaria (Wanderer et al). 1986; 78:417-23
Combined cold-and heat-induced cholinergic urticaria (Farnam et al). 1986; 78:353-7
Prostaglandin $D_2$ and histamine release in cold urticaria (Heavey et al). 1986; 78:458-61
**Colony growth**
Basophilic cell progenitors, nasal metachromatic cells, and pe-

ripheral blood basophils in ragweed-allergic patients (Otsuka et al). 1986; 78:365-71
Effects of glucocorticoids on eosinophil colony growth (Butterfield et al). 1986; 78:450-7
Staphylococcal colonization, infection, and atopic dermatitis—association not etiology (Hanifin and Homburger). 1986; 78:563-6 (Editorial)

**Compliance**
Report of the AAAI task force on guidelines for clinical investigation of nonbronchodilator antiasthmatic drugs: compliance factors (Spector and Lewis). 1986; 78:529-33 (Workshop)

**Compound 48/80**
Increased compound 48/80 induced local histamine release from nonlesional skin of patients with chronic urticaria (Bédard et al). 1986; 78:1121-5

**Concanavalin A**
Antigens and allergens of *Aspergillus fumigatus*. II. Their further identification and partial characterization of a major allergen (Longbottom). 1986; 78:18-24
Enhanced basophil histamine release to concanavalin A in allergic rhinitis (Busse et al). 1986; 78:90-7

**Conjunctiva**
Conjunctival basophil hypersensitivity in the guinea pig (Allansmith and Cornell-Bell). 1986; 78:919-27

**Contact sensitivity**
Desensitization of experimental contact sensitivity (Mekori and Claman). 1986; 78:1073-81 (Symposium)

**Contin delivery system**
The Contin delivery system: dosing considerations (Leslie). 1986; 78:768-73 (Symposium)

**Continuing medical education**
Continuing medical education. 1986; 78:547-62, 1089-1098

**Contraceptives**
Therapeutic consequences of drug interactions with theophylline pharmacokinetics (Jonkman). 1986; 78:736-42 (Symposium)

**Contrast media**
Comparison of histamine release effects of ionic and nonionic radiographic contrast media (Salem et al). 1986; 78:29 (Abst. vol. 72)

**Controlled-release product**
Effects of food on the bioavailability of theophylline from controlled-release products in adults (Karim). 1986; 78:695-703 (Symposium)
Formulation of controlled-release products (Robinson and Gauger). 1986; 78:676-81 (Symposium)

**Conversion disorder**
Adverse reactions to foods: relevance to psychiatric disorders (Crayton). 1986; 78:243-50 (Symposium)

**Cord serum**
Maternal smoking influences cord serum IgE and IgD levels and increases the risk for subsequent infant allergy (Magnusson). 1986; 78:898-904

**Corrections**
Addition to "Acknowledgment to Reviewers" (1985; 76:877). 1986; 78:652
Listings of Workshop Members and Task Force (1986; 78: Sept pt 2, 3A-6A). 1986; 78:1201

**Correspondence**
Correspondence. 1986; 78:122-3, 486-7

**Corticosteroids**
Medications and their use in the treatment of adverse reactions to foods (Sogn). 1986; 78:238-43 (Symposium)
Outcome of pregnancy in women requiring corticosteroids for severe asthma (Fitzsimons et al). 1986; 78:349-53
Therapeutic consequences of drug interactions with theophylline pharmacokinetics (Jonkman). 1986; 78:736-42 (Symposium)

**Costs**
The impact of health education on frequency and costs of health care use by low income children with asthma (Clark et al). 1986; 78:108-15

**Cow's milk**
Effectiveness of dietary manipulation in the prevention of food allergy in infants (Zeiger et al). 1986; 78:224-38 (Symposium)

**Crab**
IgE sensitization in snow crab–processing workers (Cartier et al). 1986; 78:344-8

**Creatine phosphokinase**
Myocardial specific creatine phosphokinase isoenzyme elevation in children with asthma treated with intravenous isoproterenol (Maguire et al). 1986; 78:631-6

**Cremophor EL**
Anaphylactoid reactions associated with parenteral cyclosporine use: possible role of cremophor EL (Howrie et al). 1986; 78:7-8 (Abst. vol. 72)

**Cromolyn sodium**
Airway responses to hyperventilation of cold dry air: duration of protection by cromolyn sodium (Juniper et al). 1986; 78:387-91
Medications and their use in the treatment of adverse reactions to foods (Sogn). 1986; 78:238-43 (Symposium)

**Cross-reactivity**
Allergens in Hymenoptera venom XVI: studies of the structures and cross-reactivities of vespid venom phospholipases (Hoffman). 1986; 78:337-43
Cross-reacting and species-specific determinants on a major allergen from *Dermatophagoides pteronyssinus* and *D. farinae*: development of a radioimmunoassay for antigen $P_1$ equivalent in house dust and dust mite extracts (Platts-Mills et al). 1986; 78:398-407
Cross-reactivity between the house dust mite *Dermatophagoides pteronyssinus* and the mange mites *Psoroptes cuniculi* and *P. ovis*. I. Demonstration of antibodies to the house dust mite allergen Dpt 12 in sera from *P. Cuniculi*-infested rabbits (Stewart and Fisher). 1986; 78:293-9

**Cyclic eosinophilic myositis**
Cyclic eosinophilic myositis and hyperimmunoglobulin-E (Ashley-Symmons et al). 1986; 78:2-3 (Abst. vol. 72)

**Cyclic nucleotides**
Relationships between adenosine, cyclic nucleotides, and xanthines in asthma (Church et al). 1986; 78:670-5 (Symposium)

**Cyclosporine**
Anaphylactoid reactions associalted with parenteral cyclosporine use: possible role of cremophor EL (Howrie et al). 1986; 78:7-8 (Abst. vol. 72)

***Cynodon dactylon***
The preparation and testing of the proposed International Reference (IRP) Bermuda grass (*Cynodon dactylon*)–pollen extract (Baer et al). 1986; 78:624-31

**Cystic fibrosis**
Effect of disease states on theophylline elimination (Jenne). 1986; 78:727-35 (Symposium)
Immune complexes and complement abnormalities in patients with cystic fibrosis (Wisnieski et al). 1986; 78:11 (Abst. vol. 72)

**Cystitis**
Danazol-induced cystitis: an undescribed source of hematuria in 1986; 78:11 (Abst.)

**Cytotoxicity**
In situ quantitation of lymph node helper, suppressor and cyto-

toxic T cell subsets in AIDS (Wood et al). 1986; 78:28 (Abst. vol. 72)

D

**Danazol**
Danazol-induced cystitis: an undescribed source of hematuria in patient with hereditary angioneurotic edema (Andriole et al). 1986; 78:23-4 (Abst. vol. 72)

**Dander**
Dose of cat (*Felis domesticus*) allergen 1 (*Fel d* 1) that induces asthma (Van Metre et al). 1986; 78:62-75

**Degranulation**
Direct in vivo evidence for mast cell degranulation during allergen-induced reactions in man (Gomez et al). 1986; 78:637-45

**Delayed reactions**
Proper application of available laboratory tests for adverse reactions to foods and food additives (Yunginger). 1986; 78:220-3 (Symposium)

**Depression**
Adverse reactions to foods: relevance to psychiatric disorders (Crayton). 1986; 78:243-50 (Symposium)

**Dermatitis**
Abnormal regulation of in vitro IgE synthesis by T cells obtained from patients with atopic dermatitis (Hemady et al). 1986; 78:22-3 (Abst. vol. 72)
Anti-*Staphylococcus aureus*–specific IgE in atopic dermatitis (Motala et al). 1986; 78:583-9
Contact allergens and prevention of contact dermatitis (Fregert). 1986; 78:1071-2 (Symposium)
IgE antibodies to *Staphylococcus aureus*: prevalence in patients with atopic dermatitis (Friedman et al). 1986; 78:10 (Abst. vol. 72)
The morphologic characteristics of dry skin in atopic dermatitis (Uehara and Miyauchi). 1986; 78:12 (Abst. vol. 72)
Staphylococcal colonization, infection, and atopic dermatitis—association not etiology (Hanifin and Homburger). 1986; 78:563-6 (Editorial)

***Dermatophagoides***; *see* **Dust mite**

**Desensitization**
Desensitization of experimental contact sensitivity (Mekori and Claman). 1986; 78:1073-81 (Symposium)
Induction of immunologic tolerance: desensitization to occupational allergens (Turk et al). 1986; 78:1082-5 (Symposium)

**Dialyzer**
Dialyzer hypersensitivity syndrome: possible role of allergy to ethylene oxide (Caruana et al). 1986; 78:19-20 (Abst. vol. 72)

**Diaphragm**
Effect of theophylline on diaphragmatic and other skeletal muscle function (Aubier). 1986; 78:787-92 (Symposium)

**Diet**
Effectiveness of dietary manipulation in the prevention of food allergy in infants (Zeiger et al). 1986; 78:224-38 (Symposium)
Humoral immunity to dietary antigens in healthy adults (Husby et al). 1986; 78:16-7 (Abst. vol. 72)
Intestinal lymphangiectasia and bilateral pleural effusions: effect of dietary therapy and surgical intervention on immunologic and pulmonary parameters (Lester et al). 1986; 78:891-7
Passage of undegraded dietary antigen into the blood of healthy adults (Husby et al). 1986; 78:7-8 (Abst. vol. 72)

**Differential diagnosis**
Differential diagnosis in adverse reactions to foods (Sampson). 1986; 78:212-9 (Symposium)

**Diphtheria**
Immunity against diphtheria 25 to 30 years after primary vaccination in childhood (Kjeldsen et al). 1986; 78:1-2 (Abst. vol. 72)

**Distilled water**
Late bronchial response and increase in methacholine hyperresponsiveness after exercise and distilled water challenge in atopic subjects with asthma with dual asthmatic response to allergen inhalation (Foresi et al). 1986; 78:1130-9

**Dog**
Cutaneous mast cell heterogeneity: response to antigen in atopic dogs (Becker et al). 1986; 78:937-42

**Dosage**
The Contin delivery system: dosing considerations (Leslie). 1986; 78:768-73 (Symposium)
Dose-dependent kinetics of theophylline (Lesko). 1986; 78:723-7 (Symposium)

**Doxepin**
Efficacy of doxepin in the treatment of chronic idiopathic urticaria (Goldsobel et al). 1986; 78:867-73

**Drug absorption**; *see* **Absorption**

**Drug action**
Kinetics of drug action: an overview (Levy). 1986; 78:754-61 (Symposium)

**Drug interaction**
Adverse effects of theophylline–beta agonist interactions (Nicklas and Balazs). 1986; 78:806-11 (Symposium)
Therapeutic consequences of drug interactions with theophylline pharmacokinetics (Jonkman). 1986; 78:736-42 (Symposium)

**Drug-induced allergy**
Drugs as allergens (de Weck). 1986; 78:1047-50 (Symposium)

**Dry air**
Airway responses to hyperventilation of cold dry air: duration of protection by cromolyn sodium (Juniper et al). 1986; 78:387-91

**Dust mite**
Cross-reacting and species-specific determinants on a major allergen from *Dermatophagoides pteronyssinus* and *D. farinae*: development of a radioimmunoassay for antigen $P_1$ equivalent in house dust and dust mite extracts (Platts-Mills et al). 1986; 78:398-407
Cross-reactivity between the house dust mite *Dermatophagoides pteronyssinus* and the mange mites *Psoroptes cuniculi* and *P. ovis*. I. Demonstration of antibodies to the house dust mite allergen Dpt 12 in sera from *P. cuniculi*-infested rabbits (Stewart and Fisher). 1986; 78:293-9
Predictive accuracy of late asthmatic reaction to *Dermatophagoides pteronyssinus* (Crimi et al). 1986; 78:908-18

**Dyspnea**
Theophylline improves global cardiac function and reduces dyspnea in chronic obstructive lung disease (Matthay and Mahler). 1986; 78:793-9 (Symposium)

E

**EABA**; *see* **Extrinsic allergic bronchiolo-alveolitis**

**Ecology**
Clinical ecology (Anderson et al). 1986; 78:269-71 (Position statement)

**Eczema**; *see also* **Allergy**
Specific IgE to food and inhalant allergens in intestinal washings of children affected by atopic eczema (Marcucci et al). 1986; 78:8 (Abst. vol. 72)

**Edema**; *see* **Angioedema**

**Editorial**
Editorial. 1986; 78:1-3, 278-81, 563-70, 848-50, 1099-102

**Education**
The impact of health education on frequency and costs of health care use by low income children with asthma (Clark et al). 1986; 78:108-15

**Electron microscopy**
Basophil immunoglobulin receptors in asthmatics under immunoscanning electron microscopy (Kimura et al). 1986; 78:1 (Abst. vol. 72)

**Elimination**
Effect of disease states on theophylline elimination (Jenne). 1986; 78:727-35 (Symposium)

**Enprofylline**
Development of safer xanthine drugs for treatment of obstructive airways disease (Persson). 1986; 78:817-24 (Symposium)
Therapeutic concentrations of theophylline and enprofylline potentiate catecholamine effects and inhibit leukocyte activation (Nielson et al). 1986; 78:660-7

**Enteropathy**
Gluten-sensitive enteropathy: a nonallergic immune hypersensitivity of the gastrointestinal tract (Strober). 1986; 78:202-11 (Symposium)

**Enuresis**
Nocturnal enuresis in children with upper airway obstruction (Weider and Hauri). 1986; 78:18-9 (Abst. vol. 72)

**Enzyme**
Enzyme profile and immunochemical characterization of *Aspergillus fumigatus* antigens (Kurup et al). 1986; 78:1166-73
Levels of IgE in serum from normal children and allergic children as measured by an enzyme immunoassay (Lindberg and Arroyave). 1986; 78:614-8
Myocardial specific creatine phosphokinase isoenzyme elevation in children with asthma treated with intravenous isoproterenol (Maguire et al). 1986; 78:631-6
Proper application of available laboratory tests for adverse reactions to foods and food additives (Yunginger). 1986; 78:220-3 (Symposium)

**Eosinophil**
Cyclic eosinophilic myositis and hyperimmunoglobulin-E (Ashley-Symmons et al). 1986; 78:2-3 (Abst. vol. 72)
Effects of glucocorticoids on eosinophil colony growth (Butterfield et al). 1986; 78:450-7
Episodic angioedema and hypereosinophilia in childhood (Hill et al). 1986; 78:122-3
Generation and partial characterization of eosinophil chemotactic activity and neutrophil chemotactic activity during early and late-phase asthmatic response (Metzger et al). 1986; 78:282-90

**Epidemiology**
Epidemiologic and socioeconomic aspects of allergic diseases (Massicot and Cohen). 1986; 78:954-8 (Symposium)
Epidemiology of allergic diseases: a neglected opportunity (Krause). 1986; 78:953-4 (Symposium)
Estimating prevalence of adverse reactions to foods: principles and constraints (Nichaman and McPherson). 1986; 78:148-54 (Symposium)

**Epinephrine**
Comparison of subcutaneous injection and high-dose inhalation of epinephrine—implications for self-treatment to prevent anaphylaxis (Heilborn et al). 1986; 78:1174-9

**Epstein-Barr virus**
Allergy and the syndrome of chronic Epstein-Barr virus infection (Welliver). 1986; 78:278-81 (Editorial)
Correlation between allergy and persistent Epstein-Barr virus infections in chronic-active Epstein-Barr virus–infected patients (Olson et al). 1986; 78:308-14
Specific allergen-induced Epstein-Barr nuclear antigen–positive B cells from patients with chronic-active Epstein-Barr virus infections (Olson et al). 1986; 78:315-20

**Ethylene oxide**
Dialyzer hypersensitivity syndrome: possible role of allergy to ethylene oxide (Caruana et al). 1986; 78:19-20 (Abst. vol. 72)

**Exercise**
Bronchodilatation and attenuation of exercise-induced bronchospasm by PY 108-068, a new calcium antagonist (Ben-Dov et al). 1986; 78:14 (Abst. vol. 72)
Late bronchial response and increase in methacholine hyperresponsiveness after exercise and distilled water challenge in atopic subjects with asthma with dual asthmatic response to allergen inhalation (Foresi et al). 1986; 78:1130-9

**Expiratory flow rate**
Characteristics and prognostic value of morning dipping of peak expiratory flow rate in stable asthmatic subjects (Bellis et al). 1986; 78:1 (Abst. vol. 72)

**Extended-release products**
Formulation of controlled-release products (Robinson and Gauger). 1986; 78:676-81 (Symposium)

**Extract**
Polyethylene glycol–modified ragweed extract: comparison of two treatment regimens (Juniper et al). 1986; 78:851-6
The preparation and testing of the proposed International Reference (IRP) Bermuda grass (*Cynodon dactylon*)– extract (Baer et al). 1986; 78:624-31

**Extrinsic allergic bronchiolo-alveolitis**
Detection of antigens in lung biopsies by immunoperoxidase staining in extrinsic allergic bronchiolo-alveolitis (EABA) (Reijula and Sutinen). 1986; 78:10 (Abst. vol. 72)

**F**

**Factor VIII concentrate**
Hemophiliac immunodeficiency: influence of exposure to factor VIII concentrate, LAV/HTLV-III, and herpesviruses (Sullivan et al). 1986; 78:15-6 (Abst. vol. 72)

**Farmer's lung disease**
Immunoregulation in farmer's lung disease: correlation between the surface phenotype and functional evaluations at pulmonary level (Semenzato et al). 1986; 78:27-8 (Abst. vol. 72)

**$Fc_\varepsilon$ receptor**
Relationships between epitopes on IgE recognized by defined monoclonal antibodies and by the $Fc_\varepsilon$ receptor on basophils (Baniyash et al). 1986; 78:17 (Abst. vol. 72)

***Fel d* 1**
Dose of cat (*Felis domesticus*) allergen 1 (*Fel d* 1) that induces asthma (Van Metre et al). 1986; 78:62-75

**Fire ant**
Seasonal variation in antigens of the imported fire ant *Solenopsis invicta* (Hannan et al). 1986; 78:331-6

**Flavonoids**
The role of hydrogen peroxide in basophil histamine release and the effect of selected flavonoids (Ogasawara et al). 1986; 78:321-8

**Food**; *see also* **Absorption; Food additives**
Absorption of Theo-Dur Sprinkle with food: importance of types of meals and medication times (Pedersen). 1986; 78:653-60
Effects of food on the absorption of theophylline in children (Pederson). 1986; 78:704-9 (Symposium)
Effects of food on the bioavailability of theophylline from controlled-release products in adults (Karim). 1986; 78:695-703 (Symposium)
Selection of a slow-release theophylline product (Hendeles and Weinberger). 1986; 78:743-51 (Symposium)

**Food additives**
Adverse reactions to foods: relevance to psychiatric disorders (Crayton). 1986; 78:243-50 (Symposium)
Adverse reactions to tartrazine (Stevenson et al). 1986; 78:182-91 (Symposium)

A critical evaluation of clinical trials in adverse reactions to foods in adults (Atkins). 1986; 78:174-82 (Symposium)
A critical evaluation of clinical trials in adverse reactions to foods in children (Bock). 1986; 78:165-74 (Symposium)
A critical evaluation of clinical trials in reactions to sulfites (Bush et al). 1986; 78:191-202 (Symposium)
Defined versus ill-defined syndromes associated with food sensitivity (May). 1986; 78:144-8 (Symposium)
Design of clinical trials (Gordis). 1986; 78:155-60 (Symposium)
Differential diagnosis in adverse reactions to foods (Sampson). 1986; 78:212-9 (Symposium)
Effectiveness of dietary manipulation in the prevention of food allergy in infants (Zeiger et al). 1986; 78:224-38 (Symposium)
The establishment of common language concerning adverse reactions to foods and food additives (Anderson). 1986; 78:140-4 (Symposium)
Estimating prevalence of adverse reactions to foods: principles and constraints (Nichaman and McPherson). 1986; 78:148-54 (Symposium)
Food antigens and additives (Moneret-Vautrin). 1986; 78:1039-46 (Symposium)
Gluten-sensitive enteropathy: a nonallergic immune hypersensitivity of the gastrointestinal tract (Strober). 1986; 78:202-11 (Symposium)
The ingredients of foods: how they are tested and why they are selected (Munro). 1986; 78:133-9 (Symposium)
Medications and their use in the treatment of adverse reactions to foods (Sogn). 1986; 78:238-43 (Symposium)
A perspective on popular perceptions of adverse reactions to foods (Sloan and Powers). 1986; 78:127-33 (Symposium)
The placebo effect (Lasagna). 1986; 78:161-5 (Symposium)
Proper application of available laboratory tests for adverse reactions to foods and food additives (Yunginger). 1986; 78:220-3 (Symposium)
Symposium proceedings on adverse reactions to food and food additives: introduction (Simopoulos and Goldblatt). 1986; 78:125-7 (Symposium)
Symposium proceedings on adverse reactions to food and food additives: summary and recommendations (Metcalfe). 1986; 78:250-2 (Symposium)

**Food allergy**
Adverse reactions to foods: relevance to psychiatric disorders (Crayton). 1986; 78:243-50 (Symposium)
Adverse reactions to tartrazine (Stevenson et al). 1986; 78:182-91 (Symposium)
Allergen absorption in the intestine: implication for food allergy in infants (Walker). 1986; 78:1003-9 (Symposium)
A critical evaluation of clinical trials in adverse reactions to foods in adults (Atkins). 1986; 78:174-82 (Symposium)
A critical evaluation of clinical trials in adverse reactions to foods in children (Bock). 1986; 78:165-74 (Symposium)
A critical evaluation of clinical trials in reactions to sulfites (Bush et al). 1986; 78:191-202 (Symposium)
Defined versus ill-defined syndromes associated with food sensitivity (May). 1986; 78:144-8 (Symposium)
Design of clinical trials (Gordis). 1986; 78:155-60 (Symposium)
Development of IgE and IgG antibodies to food and inhalant allergens in children at risk of allergic disease (Rowntree et al). 1986; 78:6 (Abst. vol. 72)
Differential diagnosis in adverse reactions to foods (Sampson). 1986; 78:212-9 (Symposium)
Effectiveness of dietary manipulation in the prevention of food allergy in infants (Zeiger et al). 1986; 78:224-38 (Symposium)
The establishment of common language concerning adverse reactions to foods and food additives (Anderson). 1986; 78:140-4 (Symposium)
Estimating prevalence of adverse reactions to foods: principles and constraints (Nichaman and McPherson). 1986; 78:148-54 (Symposium)
Food antigens and additives (Moneret-Vautrin). 1986; 78:1039-46 (Symposium)
Gluten-sensitive enteropathy: a nonallergic immune hypersensitivity of the gastrointestinal tract (Strober). 1986; 78:202-11 (Symposium)
The ingredients of foods: how they are tested and why they are selected (Munro). 1986; 78:133-9 (Symposium)
Medications and their use in the treatment of adverse reactions to foods (Sogn). 1986; 78:238-43 (Symposium)
A perspective on popular perceptions of adverse reactions to foods (Sloan and Powers). 1986; 78:127-33 (Symposium)
The placebo effect (Lasagna). 1986; 78:161-5 (Symposium)
Placebo-controlled double-blind food challenge in asthma (Onorato et al). 1986; 78:1139-46
Proper application of available laboratory tests for adverse reactions to foods and food additives (Yunginger). 1986; 78:220-3 (Symposium)
Specific IgE to food and inhalant allergens in intestinal washings of children affected by atopic eczema (Marcucci et al). 1986; 78:8 (Abst. vol. 72)
Symposium proceedings on adverse reactions to food and food additives: introduction (Simopoulos and Goldblatt). 1986; 78:125-7 (Symposium)
Symposium proceedings on adverse reactions to food and food additives: summary and recommendations (Metcalfe). 1986; 78:250-2 (Symposium)

G

**Gastroesophageal reflux**
Increase in gastroesophageal reflux during methacholine-induced bronchospasm (Moote et al). 1986; 78:619-23
**Gastrointestinal absorption**; *see* **Absorption**
**Gastrointestinal tract**; *see also* **Absorption**
Gastrointestinal permeability in atopic and nonatopic mothers assessed with different-sized polyethylene glycols (PEG 400 and PEG 1000) (Falth-Magnusson et al). 1986; 78:24 (Abst. vol. 72)
Gluten-sensitive enteropathy: a nonallergic immune hypersensitivity of the gastrointestinal tract (Strober). 1986; 78:202-11 (Symposium)
**Genetics**
Immune complexes in hereditary angioneurotic edema (HANE) (D'Amelio et al). 1986; 78P486-7 (Letter)
Preventive allergy: genetics of IgE-mediated diseases (Blumenthal et al). 1986; 78:962-8 (Symposium)
**Glucocorticoids**
Effects of glucocorticoids on eosinophil colony growth (Butterfield et al). 1986; 78:450-7
Immunoregulatory feedback between interleukin-1 and glucocorticoid hormones (Besedovsky et al). 1986; 78:29-30 (Abst. vol. 72)
**Gluten-sensitive enteropathy**
Gluten-sensitive enteropathy: a nonallergic immune hypersensitivity of the gastrointestinal tract (Strober). 1986; 78:202-11 (Symposium)
**Grass pollen**
A double-blind placebo-controlled trial of polymerized whole grass administered in an accelerated dosage schedule for immunotherapy of grass pollinosis (Grammer et al). 1986; 78:1180-4
The preparation and testing of the proposed International Reference (IRP) Bermuda grass (*Cynodon dactylon*)-pollen extract (Baer et al). 1986; 78:624-31

Seasonal asthma in northern California: allergic causes and efficacy of immunotherapy (Reid et al). 1986; 78:590-600

Specific IgE response before and after rush immunotherapy with a standardized allergen or allergoid in grass-pollen allergy (Bousquet et al). 1986; 78:22, 25-6 (Abst. vol. 72)

**Guinea pig**

Conjunctival basophil hypersensitivity in the guinea pig (Allansmith and Cornell-Bell). 1986; 78:919-27

**H**

**Halothane**

The use of halothane in the treatment of status asthmaticus (Bayliff et al). 1986; 78:26 (Abst. vol. 72)

**Hay fever**

Abstracts. 1986; 78:1, 5, 9, 15, 21-2, 25-6 (vol. 72)

Dose of cat (*Felis domesticus*) allergen 1 (*Fel d* 1) that induces asthma (Van Metre et al). 1986; 78:62-75

**Health care cost**

The impact of health education on frequency and cost of health care use by low income children with asthma (Clark et al). 1986; 78:108-15

**Health education**

The impact of health education on frequency and cost of health care use by low income children with asthma (Clark et al). 1986; 78:108-15

**Heat**

Combined cold-and heat-induced cholinergic urticaria (Farnam et al). 1986; 78:353-7

**Helper T cell; *see also* Lymphocyte**

Helper and suppressor T cell subsets in 138 asthmatic children undergoing different therapeutic trials (Lison et al). 1986; 78:18 (Abst. vol. 72)

**Hematoma**

Rectus sheath hematoma complicating an exacerbation of asthma (Lee et al). 1986; 78:290-2

**Hematuria**

Danazol-induced cystitis: an undescribed source of hematuria in patient with hereditary angioneurotic edema (Andriole et al). 1986; 78:23-4 (Abst. vol. 72)

**Hemophilia**

Hemophiliac immunodeficiency: influence of exposure to factor VIII concentrate, LAV/HTLV-III, and herpesviruses (Sullivan et al). 1986; 78:15-6 (Abst. vol. 72)

**Hepatitis**

Anti-idiotypic antibody vaccine for type B viral hepatitis in chimpanzees (Kennedy et al). 1986; 78:5-6 (Abst. vol. 72)

**Heredity**; *see* **Genetics**

**Herpesviruses**

Hemophiliac immunodeficiency: influence of exposure to factor VIII concentrate, LAV/HTLV-III, and herpesviruses (Sullivan et al). 1986; 78:15-6 (Abst. vol. 72)

**Heterogeneity**

Cutaneous mast cell heterogeneity: response to antigen in atopic dogs (Becker et al). 1986; 78:937-42

**Heteroptera:Reduviidae**

Identification and partial purification of species-specific allergens from *Triatoma protracta* (Heteroptera:Reduviidae) (Chapman et al). 1986; 78:436-42

Species-specific allergens from the salivary glands of Triatominae (Heteroptera:Reduviidae) (Marshall et al). 1986; 78: 430-5

**Histamine**

Comparison of histamine release effects of ionic and nonionic radiographic contrast media (Salem et al). 1986; 78:29 (Abst. vol. 72)

Conjunctival immediate hypersensitivity: reevaluation of histamine involvement in the vasopermeability response (Woodward et al). 1986; 78:23 (Abst. vol. 72)

Decreased skin response to intradermal histamine in cancer patients (Burtin et al). 1986; 78:83-9

The effects of combined $H_1$ and $H_2$ histamine antagonists on alterations in nasal airflow resistance induced by topical histamine provocation (Havas et al). 1986; 78:856-60

Enhanced basophil histamine release to concanavalin A in allergic rhinitis (Busse et al). 1986; 78:90-7

Exposure to a sensitizing occupational agent can cause a long lasting increase in bronchial responsiveness to histamine in the absence of significant changes in airway caliber (Cartier et al). 1986; 78:1185-9

Increased compound 48/80 induced local histamine release from nonlesional skin of patients with chronic urticaria (Blaaedard et al). 1986; 78:1121-5

Interaction of verapamil hydrochloride and atropine sulfate on histamine-induced bronchoconstriction (Krivoy et al). 1986; 78:4 (Abst. vol. 72)

Lack of acute effects of ascorbic acid on spirometry and airway responsiveness to histamine in subjects with asthma (Malo et al). 1986; 78:1153-8

Measurement of $N^{\tau}$-methylhistamine concentrations in plasma and urine as a parameter for histamine release during anaphylactoid reactions (Keyzer et al). 1986; 78:20 (Abst. vol. 72)

Phorbol myristate acetate lung injury and airway responsiveness to aerosol histamine in awake sheep (Dyer et al). 1986; 78:44-50

Prostaglandin $D_2$ and histamine release in cold urticaria (Heavey et al). 1986; 78:458-61

Pulmonary response to nasal-challenge testing of atopic subjects with stable asthma (Schumacher et al). 1986; 78:30-5

The relationship between acetylcholine-and histamine-induced constriction of large airways in normal subjects and subjects with asthma: a possible role for postreceptor mechanisms (Popa). 1986; 78:601-13

The role of hydrogen peroxide in basophil histamine release and the effect of selected flavonoids (Ogasawara et al). 1986; 78:321-8

Spontaneous histamine release after exposure to hyperosmolar solutions (Banks et al). 1986; 78:51-7

Theophylline reduces histamine release during pollen-induced rhinitis (Naclerio et al). 1986; 78:874-6

**HLA**

The association of HLA and immune responses to bovine collagen implants (Vanderveen et al). 1986; 78:28 (Abst. vol. 72)

**Honeybee**; *see* **Bee**

**Host defense**

Host-defense mechanisms responsible for lung injury (Ward). 1986; 78:373-8 (John M. Sheldon lecture)

**House dust mite**; *see* **Dust mite**

**Humoral immunity**; *see also* **B cell; Lymphocyte**

Defective humoral immunity in pediatric-acquired immune deficiency syndrome (Bernstein et al). 1986; 78:9-10 (Abst. vol. 72)

Humoral immunity to dietary antigens in healthy adults (Husby et al). 1986; 78:16-7 (Abst. vol. 72)

**Hydrocortisone**

Comparison between high and moderate doses of hydrocortisone in the treatment of status asthmaticus (Raimondi et al). 1986; 78:25 (Abst. vol. 72)

Sensitivity to hydrocortisone is a relevant factor in the immunoendocrine relationship. I. The cell-mediated immune response in relation to blood levels and in vitro immunosuppressive effects of hydrocortisone in patients with asthma and healthy control subjects (Weller et al). 1986; 78:423-30

**Hydrogen peroxide**
The role of hydrogen peroxide in basophil histamine release and the effect of selected flavonoids (Ogasawara et al). 1986; 78:321-8
**Hymenoptera**
Allergens in Hymenoptera venom XVI: studies of the structures and cross-reactivities of vespid venom phospholipases (Hoffman). 1986; 78:337-43
**Hypercalcemia**
Theophylline-induced hypercalcemia (McPherson et al). 1986; 78:30 (Abst. vol. 72)
**Hypereosinophilia**
Episodic angioedema and hypereosinophilia in childhood (Hill et al). 1986; 78:122-3
**Hyperosmolar solution**
Spontaneous histamine release after exposure to hyperosmolar solutions (Banks et al). 1986; 78:51-7
**Hyperreactivity**
Effect of nifedipine on hyperreactive bronchial responses to methacholine (Moscato et al). 1986; 78:3 (Abst. vol. 72)
Late bronchial response and increase in methacholine hyperresponsiveness after exercise and distilled water challenge in atopic subjects with asthma with dual asthmatic response to allergen inhalation (Foresi et al). 1986; 78:1130-9
The origin of airway hyperresponsiveness (Hargreave et al). 1986; 78:825-32 (Postgrad. course)
Plicatic acid–specific IgE and nonspecific bronchial hyperresponsiveness in western red-cedar workers (Vedal et al). 1986; 78:1103-9
**Hypersensitivity**; *see also* **Sensitivity**
Candidiasis hypersensitivity syndrome (Anderson et al). 1986; 78:271-3 (Position statement)
Conjunctival basophil hypersensitivity in the guinea pig (Allansmith et al). 1986; 78:919-27
Conjunctival immediate hypersensitivity: reevaluation of histamine involvement in the vasopermeability response (Woodward et al). 1986; 78:23 (Abst. vol. 72)
Dialyzer hypersensitivity syndrome: possible role of allergy to ethylene oxide (Caruana et al). 1986; 78:19-20 (Abst. vol. 72)
Gluten-sensitive enteropathy: a nonallergic immune hypersensitivity of the gastrointestinal tract (Strober). 1986; 78:202-11 (Symposium)
**Hypersensitivity pneumonitis**
Immunologic response to aerosols of affinity-purified antigen in hypersensitivity pneunonitis (Stricker et al). 1986; 78:411-6
**Hyperventilation**
Airway responses to hyperventilation of cold dry air: duration of protection by cromolyn sodium (Juniper et al). 1986; 78:387-91

I

**Idiopathic urticaria**
Efficacy of doxepin in the treatment of chronic idiopathic urticaria (Goldsobel et al). 1986; 78:867-73
Studies of the cellular infiltrate of chronic idiopathic urticaria: prominence of T-lymphocytes, monocytes, and mast cells (Elias et al). 1986; 78:914-8
**Ig**; *see* **Immunoglobulin**; specific immunoglobulin
**Immune complexes**
Circulating immune complexes: their biologic and clinical significance (Barnett). 1986; 78:1089-96 (CME article)
Immune complexes and complement abnormalities in patients with cystic fibrosis (Wisnieski et al). 1986; 78:11 (Abst. vol. 72)
Immune complexes in hereditary angioneurotic edema (HANE) (D'Amelio et al). 1986; 78:486-7 (Letter)
**Immune hypersensitivity**
Gluten-sensitive enteropathy: a nonallergic immune hypersensitivity of the gastrointestinal tract (Strober). 1986; 78:202-11 (Symposium)
**Immunity**; *see also* **Immunoglobulin**
Cell-mediated immunity in cat-scratch disease (Gerber et al). 1986; 78:887-90
Defective humoral immunity in pediatric-acquired immune deficiency syndrome (Bernstein et al). 1986; 78:9-10 (Abst. vol. 72)
Humoral immunity to dietary antigens in healthy adults (Husby et al). 1986; 78:16-7 (Abst. vol. 72)
Immunity against diphtheria 25 to 30 years after primary vaccination in childhood (Kjeldsen et al). 1986; 78:1-2 (Abst. vol. 72)
**Immunization**; *see also* **Vaccine**
Response to immunization after partial and total splenectomy (Dawes et al). 1986; 78:17-8 (Abst. vol. 72)
**Immunoassay**
Levels of IgE in serum from normal children and allergic children as measured by an enzyme immunoassay (Lindberg and Arroyave). 1986; 78:614-8
**Immunodeficiency**
Defective humoral immunity in pediatric-acquired immune deficiency syndrome (Bernstein et al). 1986; 78:9-10 (Abst. vol. 72)
Hemophiliac immunodeficiency: influence of exposure to factor VIII concentrate, LAV/HTLV-III, and herpesviruses (Sullivan et al). 1986; 78:15-6 (Abst. vol. 72)
In situ quantitation of lymph node helper, suppressor and cytotoxic T cell subsets in AIDS (Wood et al). 1986; 78:28 (Abst. vol. 72)
Oral desensitization to trimethoprim-sulfamethoxazole in a patient with acquired immunodeficiency syndrome (Finegold). 1986; 78:905-8
**Immunoelectrophoresis**
Antigens and allergens of *Aspergillus fumigatus*. I. Characterization by quantitative immunoelectrophoretic techniques (Longbottom and Austwick). 1986; 78:9-17
The value of rocket immunoelectrophoresis for C4 activation in the evaluation of patients with angioedema or C1-inhibitor deficiency (Zuraw et al). 1986; 78:1115-20
**Immunoglobulin**; *see also* **Immunoglobulin E; Immunoglobulin G**
Basophil immunoglobulin receptors in asthmatics under immunoscanning electron microscopy (Kimura et al). 1986; 78:1 (Abst. vol. 72)
Cyclic eosinophilic myositis and hyperimmunoglobulin-E (Ashley-Symmons et al). 1986; 78:2-3 (Abst. vol. 72)
**Immunoglobulin A**
Serum IgA antibodies to *Aspergillus fumigatus* in various stages of allergic bronchopulmonary aspergillosis (Gutt et al). 1986; 78:98-101
**Immunoglobulin D**
SIgDμs and sIgD+ B cells responding to thymus-independent antigens have a different lymphokine requirement (Waldschmidt et al). 1986; 78:2 (Abst. vol. 72)
**Immunoglobulin E**
Abnormal regulation of in vitro IgE synthesis by T cells obtained from patients with atopic dermatitis (Hemady et al). 1986; 78:22-3 (Abst. vol. 72)
Advances in understanding of mechanisms of IgE disregulation in atopy by the application of in vitro methods (Ricci et al). 1986; 78:988-94 (Symposium)
Antigens and allergens of *Aspergillus fumigatus*. I. Character-

ization by quantitative immunoelectrophoretic techniques (Longbottom and Austwick). 1986; 78:9-17

Anti-*Staphylococcus aureus*–specific IgE in atopic dermatitis (Motala et al). 1986; 78:583-9

Cellular abnormalities in patients with elevated serum IgE levels (Geha and Leung). 1986; 78:995-9

Cyclic eosinophilic myositis and hyperimmunoglobulin-E (Ashley-Symmons et al). 1986; 78:2-3 (Abst. vol. 72)

Detection of proteins in wheat flour extracts that bind human IgG, IgE, and mouse monoclonal antibodies (Theobald et al). 1986; 78:470-7

Development of IgE and IgG antibodies to food and inhalant allergens in children at risk of allergic disease (Rowntree et al). 1986; 78:6 (Abst. vol. 72)

Effect of respiratory and other virus infections on IgE immunoregulation (Frick). 1986; 78:1013-8 (Symposium)

Enhanced basophil histamine release to concanavalin A in allergic rhinitis (Busse et al). 1986; 78:90-7

Identification and partial purification of species-specific allergens from *Triatoma protracta* (Heteroptera:Reduviidae) (Chapman et al). 1986; 78:436-42

IgE antibodies to *Staphylococcus aureus*: prevalence in patients with atopic dermatitis (Friedman et al). 1986; 78:10 (Abst. vol. 72)

IgE deposition in normal skin of patients with rheumatoid arthritis in relation to clinical and laboratory findings (De Clerck et al). 1986; 78:11 (Abst. vol. 72)

IgE sensitization in snow crab–processing workers (Cartier et al). 1986; 78:344-8

Levels of IgE in serum from normal children and allergic children as measured by an enzyme immunoassay (Lindberg and Arroyave). 1986; 78:614-8

Perinatal-maternal relationships in the regulation of IgE antibody responsiveness (Jarrett and Hall). 1986; 78:1000-3 (Symposium)

Plicatic acid–specific IgE and nonspecific bronchial hyperresponsiveness in western red-cedar workers (Vedal et al). 1986; 78:1103-9

Preventive allergy: genetics of IgE-mediated diseases (Blumenthal et al). 1986; 78:962-8 (Symposium)

Relationships between epitopes on IgE recognized by defined monoclonal antibodies and by the Fc$_\varepsilon$ receptor on basophils (Baniyash et al). 1986; 78:17 (Abst. vol. 72)

Serum IgE levels in patients with inflammatory bowel disease (Levo et al). 1986; 78:3-4 (Abst. vol. 72)

Species-specific allergens from the salivary glands of Triatominae (Heteroptera:Reduviidae) (Marshall et al). 1986; 78:430-5

Specific IgE to food and inhalant allergens in intestinal washings of children at risk of allergic disease (Rowntree et al). 1986; 78:6 (Abst. vol. 72)

Specific IgE response before and after rush immunotherapy with a standardized allergen or allergoid in grass-pollen allergy (Bousquet et al). 1986; 78:22 (Abst. vol. 72)

Specific IgE response before and after rush immunotherapy with a standardized allergen or allergoid in grass-pollen allergy (Bousquet et al). 1986; 78:25-6 (Abst. vol. 72)

A study of the human immune response to *Lolium perenne* (Rye) pollen and its components, *Lol p* I and *Lol p* II (Rye I and Rye II). I. Prevalence of reactivity to the allergens and correlations among skin test, IgE antibody, and IgG antibody data (Freidhoff et al). 1986; 78:1190-1201

Suppression of IgE and non-IgE antibodies to industrial chemicals by conjugates of polyvinyl alcohol (Wei et al). 1986; 78:1066-70 (Symposium)

A T cell activity that enhances polyclonal IgE production and its inhibition by interferon (Coffman and Carty). 1986; 78:26-7 (Abst. vol. 72)

**Immunoglobulin G**

Antigens and allergens of *Aspergillus fumigatus*. I. Characterization by quantitative immunoelectrophoretic techniques (Longbottom and Austwick). 1986; 78:9-17

Combined active and passive immunotherapy in honeybee-sting allergy (Müller et al). 1986; 78:115-22

Detection of proteins in wheat flour extracts that bind human IgG, IgE, and mouse monoclonal antibodies (Theobald et al). 1986; 78:470-7

Recurrent sinupulmonary infection and impaired antibody response to bacterial capsular polysaccharide antigen in children with selective IgG-subclass deficiency (Umetsu et al). 1986; 78:12-3 (Abst. vol. 72)

A study of the human immune response to *Lolium perenne* (Rye) pollen and its components, *Lol p* I and *Lol p* II (Rye I and Rye II). I. Prevalence of reactivity to the allergens and correlations among skin test, IgE antibody, and IgG antibody data (Freidhoff et al). 1986; 78:1190-1201

**Immunology**

Abstracts. 1986; 78:1-2, 5-7, 9-12, 16-8, 22-3, 26-9 (vol.72)

Allergy and clinical immunology—2001 (Salvaggio). 1986; 78:253-68 (Pres. address)

Immunologic alterations related to expression of the allergic phenotype (Katz). 1986; 78:980-7 (Symposium)

Immunologic and biochemical properties of the major mouse urinary allergen (Mus m 1) (Lorusso et al). 1986; 78:928-37

Immunologic response to aerosols of affinity-purified antigen in hypersensitivity pneunonitis (Stricker et al). 1986; 78:411-6

Induction of immunologic tolerance: desensitization to occupational allergens (Turk et al). 1986; 78:1082-5 (Symposium)

Intestinal lymphangiectasia and bilateral pleural effusions: effect of dietary therapy and surgical intervention on immunologic and pulmonary parameters (Lester et al). 1986; 78:891-7

Lung immunology and its contribution to the immunopathogenesis of certain respiratory diseases (Reynolds). 1986; 78:833-47 (Leo H Griep, MD, Alumni Lecture)

Sensitivity to hydrocortisone is a relevant factor in the immunoendocrine relationship. I. The cell-mediated immune response in relation to blood levels and in vitro immunosuppressive effects of hydrocortisone in patients with asthma and healthy control (Weller et al). 1986; 78:423-30

Unproven procedures for diagnosis and treatment of allergic and immunologic diseases (Anderson et al). 1986; 78:257-7 (Position statement)

**Immunoperoxidase**

Detection of antigens in lung biopsies by immunoperoxidase staining in extrinsic allergic bronchiolo-alveolitis (EABA) (Reijula and Sutinen). 1986; 78:10 (Abst. vol. 72)

**Immunopharmacology**

Immunopharmacology of the atopic diseases (Hanifin et al). 1986; 78:4 (Abst. vol. 72)

**Immunoscanning**

Basophil immunoglobulin receptors in asthmatics under immunoscanning electron microscopy (Kimura et al). 1986; 78:1 (Abst. vol. 72)

**Immunosuppressive**

Sensitivity to hydrocortisone is a relevant factor in the immunoendocrine relationship. I. The cell-mediated immune response in relation to blood levels and in vitro immunosuppressive effects of hydrocortisone in patients with asthma and healthy control (Weller et al). 1986; 78:423-30

**Immunotherapy**

A double-blind placebo-controlled trial of polymerized whole grass administered in an accelerated dosage schedule for im-

munotherapy of grass pollinosis (Grammer et al). 1986; 78:1180-4
Combined active and passive immunotherapy in honeybee-sting allergy (Müller et al). 1986; 78:115-22
Seasonal asthma in northern California: allergic causes and efficacy of immunotherapy (Reid et al). 1986; 78:590-600

**In memoriam**
Fernando Moreno-Pagan, MD (Pollowitz). 1986; 78:948

**Income**
The impact of health education on frequency and costs of health care use by low income children with asthma (Clark et al). 1986; 78:108-15

**Infant**; *see also* **Child**
Allergen absorption in the intestine: implication for food allergy in infants (Walker). 1986; 78:1003-9 (Symposium)
A critical evaluation of clinical trials in adverse reactions to foods in children (Bock). 1986; 78:165-74 (Symposium).
Differential diagnosis in adverse reactions to foods (Sampson). 1986; 78:212-9 (Symposium)
Effectiveness of dietary manipulation in the prevention of food allergy in infants (Zeiger et al). 1986; 78:224-38 (Symposium)
Increased concentrations of milk antibodies in recurrent pulmonary aspiration in infants and young children (Muller et al). 1986; 78:18 (Abst. vol. 72)
Maternal smoking influences cord serum IgE and IgD levels and increases the risk for subsequent infant allergy (Magnusson). 1986; 78:898-904

**Infection**
Allergy and the syndrome of chronic Epstein-Barr virus infection (Welliver). 1986; 78:278-81 (Editorial)
Correlation between allergy and persistent Epstein-Barr virus infections in chronic-active Epstein-Barr virus–infected patients (Olson et al). 1986; 78:308-14
Effect of respiratory and other virus infections on IgE immunoregulation (Frick). 1986; 78:1013-8 (Symposium)
Recurrent sinupulmonary infection and impaired antibody response to bacterial capsular polysaccharide antigen in children with selective IgG-subclass deficiency (Umetsu et al). 1986; 78:12-3 (Abst. vol. 72)
Specific allergen-induced Epstein-Barr nuclear antigen–positive B cells from patients with chronic-active Epstein-Barr virus infections (Olson et al). 1986; 78:315-20
Staphylococcal colonization, infection, and atopic dermatitis—association not etiology (Hanifin and Homburger). 1986; 78:563-6 (Editorial)

**Inflammatory bowel disease**
Serum IgE levels in patients with inflammatory bowel disease (Levo et al). 1986; 78:3-4 (Abst. vol. 72)

**Influenza vaccine**
Therapeutic consequences of drug interactions with theophylline pharmacokinetics (Jonkman). 1986; 78:736-42 (Symposium)

**Inhalation**
Development of IgE and IgG antibodies to food and inhalant allergens in children at risk of allergic disease (Rowntree et al). 1986; 78:6 (Abst. vol. 72)
Specific IgE to food and inhalant allergens in intestinal washings of children affected by atopic eczema (Marcucci et al). 1986; 78:8 (Abst. vol. 72)

**InspirEase**
Effect of InspirEase on the deposition of metered-dose aerosols in the human respiratory tract (Newman et al). 1986; 78:15 (Abst. vol. 72)

**Interferon**
A T cell activity that enhances polyclonal IgE production and its inhibition by interferon (Coffman and Carty). 1986; 78:26-7 (Abst. vol. 72)

**Interleukins**
Immunoregulatory feedback between interleukin-1 and glucocorticoid hormones (Besedovsky et al). 1986; 78:29-30 (Abst. vol. 72)
Lack of responsiveness of beekeeper mononuclear cells to in vitro stimulation with pure bee venom (Lomnitzer et al). 1986; 78:25-30

**International Reference Standard**
The preparation and testing of the proposed International Reference (IRP) Bermuda grass (*Cynodon dactylon*)–pollen extract (Baer et al). 1986; 78:624-31

**Intestinal lymphangiectasia**
Intestinal lymphangiectasia and bilateral pleural effusions: effect of dietary therapy and surgical intervention on immunologic and pulmonary parameters (Lester et al). 1986; 78:891-7

**Intestinal washings**
Specific IgE to food and inhalant allergens in intestinal washings of children affected by atopic eczema (Marcucci et al). 1986; 78:8 (Abst. vol. 72)

**Intestine**; *see also* **Absorption**
Allergen absorption in the intestine: implication for food allergy in infants (Walker). 1986; 78:1003-9 (Symposium)

**Intoxication**
Treatment of theophylline intoxication (Goldberg et al). 1986; 78:811-7 (Symposium)

**Intradermal histamine**
Decreased skin response to intradermal histamine in cancer patients (Burtin et al). 1986; 78:83-9

**Isocapnic cold air challenges**
Within-and between-day reproducibility of isocapnic cold air challenges in subjects with asthma (Tessier et al). 1986; 78:379-87

**Isoproterenol**
Myocardial specific creatine phosphokinase isoenzyme elevation in children with asthma treated with intravenous isoproterenol (Maguire et al). 1986; 78:631-6

**Isotope**
Application of stable isotope methodology in the evaluation of sustained-release theophylline dosage forms (Koup et al). 1986; 78:752-4 (Symposium)

**K**

**Kallikrein**
Acquired Cl esterase-inhibitor deficiency: case report with emphasis on complement and kallikrein activation during two patterns of clinical manifestations (Henteges et al). 1986; 78:860-7

**Ketotifen**
Medications and their use in the treatment of adverse reactions to foods (Sogn). 1986; 78:238-43 (Symposium)

**Killer cells**
Modulation of natural killer cell function by human alveolar macrophages (Weissman et al). 1986; 78:571-7
Natural killer cells in lungs and other tissues and regulation of their activity by suppressor cells (Herberman). 1986; 78:566-70 (Editorial)

**Kinetics**
Dose-dependent kinetics of theophylline (Lesko). 1986; 78:723-7 (Symposium)
Kinetics of drug action: an overview (Levy). 1986; 78:754-61 (Symposium)

**L**

**Laundry detergent**
Detection of antibodies to proteases used in laundry detergents by the radioallergosorbent test (Dor et al). 1986; 78:877-86

**LAV/HTLV-III**; *see also* **Acquired immunodeficiency syndrome**
Hemophiliac immunodeficiency: influence of exposure to factor VIII concentrate, LAV/HTLV-III, and herpesviruses (Sullivan et al). 1986; 78:15-6 (Abst. vol. 72)

**Letters**
Correspondence. 1986; 78:122-3, 486-7

**Leukocyte**
Therapeutic concentrations of theophylline and enprofylline potentiate catecholamine effects and inhibit leukocyte activation (Nielson et al). 1986; 78:660-7

***Lolium perenne* pollen**
A study of the human immune response to *Lolium perenne* (Rye) pollen and its components, *Lol p* I and *Lol p* II (Rye I and Rye II). I. Prevalence of reactivity to the allergens and correlations among skin test, IgE antibody, and IgG antibody data (Freidhoff et al). 1986; 78:1190-1201

**Lung**
Detection of antigens in lung biopsies by immunoperoxidase staining in extrinsic allergic bronchiolo-alveolitis (EABA) (Reijula and Sutinen). 1986; 78:10 (Abst. vol. 72)
Large lungs after childhood asthma: a consequence of enlarged airspaces (Greaves and Colebatch). 1986; 78:21 (Abst. vol. 72)
Lung immunology and its contribution to the immunopathogenesis of certain respiratory diseases (Reynolds). 1986; 78:833-47 (Leo H Griep, MD, Alumni Lecture)

**Lung disease**
Host-defense mechanisms responsible for lung injury (Ward). 1986; 78:373-8 (John M Sheldon Lecture)
Immunoregulation in farmer's lung disease: correlation between the surface phenotype and functional evaluations at pulmonary level (Semenzato et al). 1986; 78:27-8 (Abst. vol. 72)
Methods of analysis of occupational lung disease (Patterson and Grammer). 1986; 78:1063-6 (Symposium)
Occupational allergic lung disease caused by organic agents (Pepys). 1986; 78:1058-62 (Symposium)
Phorbol myristate acetate lung injury and airway responsiveness to aerosol histamine in awake sheep (Dyer et al). 1986; 78:44-50
Theophylline improves global cardiac function and reduces dyspnea in chronic obstructive lung disease (Matthay and Mahler). 1986; 78:793-9 (Symposium)

**Lymph node**
In situ quantitation of lymph node helper, suppressor and cytotoxic T cell subsets in AIDS (Wood et al). 1986; 78:28 (Abst. vol. 72)

**Lymphangiectasia**
Intestinal lymphangiectasia and bilateral pleural effusions: effect of dietary therapy and surgical intervention on immunologic and pulmonary parameters (Lester et al). 1986; 78:891-7

**Lymphokine**
SIgD− and sIgD+ B cells responding to thymus-independent antigens have a different lymphokine requirement (Waldschmidt et al). 1986; 78:2 (Abst. vol. 72)

**M**

**Macrophage**
Modulation of natural killer cell function by human alveolar macrophages (Weissman et al). 1986; 78:571-7

**Mange mites**
Cross-reactivity between the house dust mite *Dermatophagoides pteronyssinus* and the mange mites *Psoroptes cuniculi* and *P. ovis*. I. Demonstration of antibodies to the house dust mite allergen Dpt 12 in sera from *P. cuniculi*-infested rabbits. (Stewart and Fisher). 1986; 78:293-9

**Mast cell**
Aminophylline exposure alters mouse bone marrow–derived mast cell adenosine responsiveness (Marquardt et al). 1986; 78:462-9
Bronchoalveolar mast cells in extrinsic asthma: a mechanism for the initiation of antigen-specific bronchoconstriction (Flint et al). 1986; 78:5 (Abst. vol. 72)
Chronic urticaria, activated T cells, and mast cell releasability (Rosenstreich). 1986; 78:1099-102
Cutaneous mast cell heterogeneity: response to antigen in atopic dogs (Becker et al). 1986; 78:937-42
Direct in vivo evidence for mast cell degranulation during allergen-induced reactions in man (Gomez et al). 1986; 78:637-45
Relationships between epitopes on IgE recognized by defined monoclonal antibodies and by the $Fc_\varepsilon$ receptor on basophils (Baniyash et al). 1986; 78:17 (Abst. vol. 72)
Studies of the cellular infiltrate of chronic idiopathic urticaria: prominence of T-lymphocytes, monocytes, and mast cells (Elias et al). 1986; 78:914-8

**Maternal smoking**
Maternal smoking influences cord serum IgE and IgD levels and increases the risk for subsequent infant allergy (Magnusson). 1986; 78:898-904

**Maturation factor**
A serum-derived molecule from autoimmune viable motheaten mice potentiates the action of a B cell maturation factor (Sidman et al). 1986; 78:16 (Abst. vol. 72)

**Maxillary sinusitis**
Correlation between A-mode ultrasound and radiography in the diagnosis of maxillary sinusitis (Rohr et al). 1986; 78:58-61

**Medication times**
Absorption of Theo-Dur Sprinkle with food: importance of types of meals and medication times (Pedersen). 1986; 78:653-60

**Metabisulfite**
Positive skin tests and Prausnitz-Küstner reactions in metabisulfite-sensitive subjects (Yang et al). 1986; 78:443-9

**Metachromatic cell**
Basophilic cell progenitors, nasal metachromatic cells, and peripheral blood basophils in ragweed-allergic patients (Otsuka et al). 1986; 78:365-71

**Metered aerosol and pump**
Effect of InspirEase on the deposition of metered-dose aerosols in the human respiratory tract (Newman et al). 1986; 78:15 (Abst. vol. 72)
The use of a single daily theophylline dose and metered-dose albuterol in asthma treatment (Busse et al). 1986; 78:577-82

**Methacholine**
Effect of nifedipine on hyperreactive bronchial responses to methacholine (Moscato et al). 1986; 78:3 (Abst. vol. 72)
Increase in gastroesophageal reflux during methacholine-induced bronchospasm (Moote et al). 1986; 78:619-23
Late bronchial response and increase in methacholine hyperresponsiveness after exercise and distilled water challenge in atopic subjects with asthma with dual asthmatic response to allergen inhalation (Foresi et al). 1986; 78:1130-9

**$N^\tau$-Methylhistamine**
Measurement of $N^\tau$-methylhistamine concentrations in plasma and urine as a parameter for histamine release during anaphylactoid reactions (Keyzer et al). 1986; 78:20 (Abst. vol. 72)

**Methylxanthines**; *see* **Theophylline; Xanthines**

**Mice**; *see* **Mouse**

**Microbiology**
Microbiologic analyses of nasal polyp tissue (Dunnette et al). 1986; 78:102-8

**Milk**
Effectiveness of dietary manipulation in the prevention of food allergy in infants (Zeiger et al). 1986; 78:224-38 (Symposium)
Increased concentrations of milk antibodies in recurrent pulmonary aspiration in infants and young children (Muller et al). 1986; 78:18 (Abst. vol. 72)

**Mite**; *see* **Dust mite**

**Monoclonal antibody**
Detection of proteins in wheat flour extracts that bind human IgG, IgE, and mouse monoclonal antibodies (Theobald et al). 1986; 78:470-7
Relationships between epitopes on IgE recognized by defined monoclonal antibodies and by the Fc$_\varepsilon$ receptor on basophils (Baniyash et al). 1986; 78:17 (Abst. vol. 72)

**Monocyte**
Studies of the cellular infiltrate of chronic idiopathic urticaria: prominence of T-lymphocytes, monocytes, and mast cells (Elias et al). 1986; 78:914-8

**Mononuclear cell**
Lack of responsiveness of beekeeper mononuclear cells to in vitro stimulation with pure bee venom (Lomnitzer et al). 1986; 78:25-30

**Mouse**
Aminophylline exposure alters mouse bone marrow–derived mast cell adenosine responsiveness (Marquardt et al). 1986; 78:462-9
Immunologic and biochemical properties of the major mouse urinary allergen (Mus m 1) (Lorusso et al). 1986; 78:928-37
A serum-derived molecule from autoimmune viable motheaten mice potentiates the action of a B cell maturation factor (Sidman et al). 1986; 78:16 (Abst. vol. 72)

**Mucosal antigens**
Serum antibody responses to indigenous oral mucosal antigens and selected laboratory-maintained bacteria in recurrent aphthous ulceration (Lindemann et al). 1986; 78:7 (Abst. vol. 72)

**Muscle**
Cyclic eosinophilic myositis and hyperimmunoglobulin-E (Ashley-Symmons et al). 1986; 78:2-3 (Abst. vol. 72)
Effect of theophylline on diaphragmatic and other skeletal muscle function (Aubier). 1986; 78:787-92 (Symposium)

**Myasthenia gravis**
Induction of suppressor cells specific for AChR in experimental autoimmune myasthenia gravis (McIntosh and Drachman). 1986; 78:11-12 (Abst. vol. 72)

**Mycelia**
Basidiomycete mycelia and spore-allergen extracts: skin test reactivity in adults with symptoms of respiratory allergy (Lehrer et al). 1986; 78:478-85

**Myocardium**
Myocardial specific creatine phosphokinase isoenzyme elevation in children with asthma treated with intravenous isoproterenol (Maguire et al). 1986; 78:631-6

**Myositis**
Cyclic eosinophilic myositis and hyperimmunoglobulin-E (Ashley-Symmons et al). 1986; 78:2-3 (Abst. vol. 72)

N

**Nasal airflow resistance**
The effects of combined $H_1$ and $H_2$ histamine antagonists on alterations in nasal airflow resistance induced by topical histamine provocation (Havas et al). 1986; 78:856-60

**Nasal symptoms**; *see also* **Rhinitis**
Psychosomatic nasal disorder (Chandler and Patterson). 1986; 78:329-31

**Nasal polyp**
Microbiologic analyses of nasal polyp tissue (Dunnette et al). 1986; 78:102-8

**Nasal-challenge testing**
Pulmonary response to nasal-challenge testing of atopic subjects with stable asthma (Schumacher et al). 1986; 78:30-5

**Nasal-sinus-pulmonary reflexes**
Nasal-sinus-pulmonary reflexes and bronchial asthma (McFadden). 1986; 78:1-3 (Editorial)

**Natural killer cell**
Modulation of natural killer cell function by human alveolar macrophages (Weissman et al). 1986; 78:571-7
Natural killer cells in lungs and other tissues and regulation of their activity by suppressor cells (Herberman). 1986; 78:566-70 (Editorial)

**Nausea**
Positive skin tests and Prausnitz-Küstner reactions in metabisulfite-sensitive subjects (Yang et al). 1986; 78:443-9

**NBAAD**. *See* **Nonbronchodilator antiasthmatic drugs**

**Neuroendocrine thymus**
The neuroendocrine thymus: coexistence of oxytocin and neurophysin in the human thymus (Geenau et al). 1986; 78:13-4 (Abst. vol. 72)

**Neurophysin**
The neuroendocrine thymus: coexistence of oxytocin and neurophysin in the human thymus (Geenau et al). 1986; 78:13-4 (Abst. vol. 72)

**Neutrophil**
Generation and partial characterization of eosinophil chemotactic activity and neutrophil chemotactic activity during early and late-phase asthmatic response (Metzger et al). 1986; 78:282-90

**Newborn**; *see also* **Infant**
Pharmacologic effects of theophylline in the newborn (Aranda et al). 1986; 78:773-80 (Symposium)

**Nifedipine**
Effect of nifedipine on hyperreactive bronchial responses to methacholine (Moscato et al). 1986; 78:3 (Abst. vol. 72)

**Nocturnal enuresis**
Nocturnal enuresis in children with upper airway obstruction (Weider and Hauri). 1986; 78:18-9 (Abst. vol. 72)

**Nonallergic immune hypersensitivity**
Gluten-sensitive enteropathy: a nonallergic immune hypersensitivity of the gastrointestinal tract (Strober). 1986; 78:202-11 (Symposium)

**Nonbronchodilator antiasthmatic drugs**
Report of the AAAI task force on guidelines for clinical investigation of nonbronchodilator antiasthmatic drugs: assessment of efficacy (Busse and Wilson). 1986; 78:525-8 (Workshop)
Report of the AAAI task force on guidelines for clinical investigation of nonbronchodilator antiasthmatic drugs: compliance factors (Spector and Lewis). 1986; 78:529-33 (Workshop)
Report of the AAAI task force on guidelines for clinical investigation of nonbronchodilator antiasthmatic drugs: data analysis (Elston and Evans). 1986; 78:541-6 (Workshop)
Report of the AAAI task force on guidelines for clinical investigation of nonbronchodilator antiasthmatic drugs: lessons from the past (Reed and Bernstein). 1986; 78:493-8 (Workshop)
Report of the AAAI task force on guidelines for clinical investigation of nonbronchodilator antiasthmatic drugs: preface (Bernstein et al). 1986; 78:489-90 (Workshop)
Report of the AAAI task force on guidelines for clinical investigation of nonbronchodilator antiasthmatic drugs: the role of bronchoprovocation (Hargreave and Fink). 1986; 78:517-24 (Workshop)

Report of the AAAI task force on guidelines for clinical investigation of nonbronchodilator antiasthmatic drugs: special pediatric problems (Siegel et al). 1986; 78:534-40 (Workshop)

Report of the AAAI task force on guidelines for clinical investigation of nonbronchodilator antiasthmatic drugs: special pharmacologic considerations (Jenne and Szefler). 1986; 78:498-506 (Workshop)

Report of the AAAI task force on guidelines for clinical investigation of nonbronchodilator antiasthmatic drugs: study design (Nicklas et al). 1986; 78:507-17 (Workshop)

Report of the AAAI task force on guidelines for clinical investigation of nonbronchodilator antiasthmatic drugs: synopsis of guidelines for the evaluation of NBAAD (Bernstein et al). 1986; 78:491-3 (Workshop)

**Nonimmunoglobulin E antibody**

Suppression of IgE and non-IgE antibodies to industrial chemicals by conjugates of polyvinyl alcohol (Wei et al). 1986; 78:1066-70 (Symposium)

**Nuclear antigen**

Specific allergen-induced Epstein-Barr nuclear antigen–positive B cells from patients with chronic-active Epstein-Barr virus infections (Olson et al). 1986; 78:315-20

**Nucleotides**

Relationships between adenosine, cyclic nucleotides, and xanthines in asthma (Church et al). 1986; 78:670-5 (Symposium)

O

**Oak-pollen**

A study of oak-pollen production and phenology in northern California: prediction of annual variation in pollen counts based on geographic and meterologic factors (Fairley and Batchelder). 1986; 78:300-7

**Obituary**

Fernando Moreno-Pagan, MD (Pollowitz). 1986; 78:948

**Obstructive pulmonary disease**

Effect of disease states on theophylline elimination (Jenne). 1986; 78:727-35 (Symposium)

Theophylline in chronic obstructive pulmonary disease (Sharp). 1986; 78:800-5 (Symposium)

Theophylline improves global cardiac function and reduces dyspnea in chronic obstructive lung disease (Matthay and Mahler). 1986; 78:793-9 (Symposium)

**Occupational allergy**

Efforts by the United States to coordinate the prevention of occupational allergic diseases in the workplace (Goldstein). 1986; 78:1086-8 (Symposium)

IgE sensitization in snow crab–processing workers (Cartier et al). 1986; 78:344-8

Induction of immunologic tolerance: desensitization to occupational allergens (Turk et al). 1986; 78:1082-5 (Symposium)

Methods of analysis of occupational lung disease (Patterson and Grammer). 1986; 78:1063-6 (Symposium)

Occupational asthma (Butcher and Salvaggio). 1986; 78:547-56 (CME article)

Occupational asthma in sawmills of eastern Canada and United States (Malo et al). 1986; 78:392-8

Occupational allergic lung disease caused by organic agents (Pepys). 1986; 78:1058-62 (Symposium)

**Occupational lung disease**

Methods of analysis of occupational lung disease (Patterson and Grammer). 1986; 78:1063-6 (Symposium)

**OKT3 monoclonal antibody**

The human immune response to the OKT3 monoclonal antibody is oligoclonal (Chatenoud et al). 1986; 78:28-9 (Abst. vol. 72)

**Oral contraceptives**

Therapeutic consequences of drug interactions with theophylline pharmacokinetics (Jonkman). 1986; 78:736-42 (Symposium)

**Oral mucosa**

Serum antibody responses to indigenous oral mucosal antigens and selected laboratory-maintained bacteria in recurrent aphthous ulceration (Lindemann et al). 1986; 78:7 (Abst. vol. 72)

**Organic agent**

Occupational allergic lung disease caused by organic agents (Pepys). 1986; 78:1058-62 (Symposium)

**Oxitropium bromide**

Oxitropium bromide: a new anticholinergic bronchodilator (Skorodin et al). 1986; 78:12 (Abst. vol. 72)

**Oxytocin**

The neuroendocrine thymus: coexistence of oxytocin and neurophysin in the human thymus (Geenau et al). 1986; 78:13-4 (Abst. vol. 72)

P

**Passive immunotherapy**

Combined active and passive immunotherapy in honeybee-sting allergy (Müller et al). 1986; 78:115-22

**Pathology**

Abstracts. 1986; 78:2-4, 7-8, 13-4, 19-20, 23-4, 29-30 (vol. 72)

**Peak expiratory flow rate**

Characteristics and prognostic value of morning dipping of peak expiratory flow rate in stable asthmatic subjects (Bellis et al). 1986; 78:1 (Abst. vol. 72)

**Penicillin**

Prevention of allergic reactions to penicillin (Sogn). 1986; 78:1051-2 (Symposium)

T cell reactivity to penicillin: phenotypic analysis of in vitro activated cell subsets (Koponen et al). 1986; 78:645-52

**Perinatal-maternal relationship**

Perinatal-maternal relationships in the regulation of IgE antibody responsiveness (Jarrett and Hall). 1986; 78:1000-3 (Symposium)

**Peripheral blood**

Basophilic cell progenitors, nasal metachromatic cells, and peripheral blood basophils in ragweed-allergic patients (Otsuka et al). 1986; 78:365-71

**Pharmacokinetics**

Dose-dependent kinetics of theophylline (Lesko). 1986; 78:723-7 (Symposium)

Therapeutic consequences of drug interactions with theophylline pharmacokinetics (Jonkman). 1986; 78:736-42 (Symposium)

**Pharmacology**

Abstracts. 1986; 78:2-4, 7-8, 13-4, 19-20, 23-4, 29-30 (vol. 72)

**Phenotype**

Immunologic alterations related to expression of the allergic phenotype (Katz). 1986; 78:980-7 (Symposium)

T cell reactivity to penicillin: phenotypic analysis of in vitro activated cell subsets (Koponen et al). 1986; 78:645-52

**Phorbol myristate acetate**

Phorbol myristate acetate lung injury and airway responsiveness to aerosol histamine in awake sheep (Dyer et al). 1986; 78:44-50

**Phospholipase**

Allergens in Hymenoptera venom XVI: studies of the structures and cross-reactivities of vespid venom phospholipases (Hoffman). 1986; 78:337-43

**Phthallic anhydride**

Phthallic anhydride-induced occupational asthma (Wernfors et al). 1986; 78:21-2 (Abst. vol. 72)

**Physiology**
Abstracts. 1986; 78:2-4, 7-8, 13-4, 19-20, 23-4, 29-30 (vol. 72)
**Placebo**
The placebo effect (Lasagna). 1986; 78:161-5 (Symposium)
**Plasma**
Measurement of $N^{\tau}$-methylhistamine concentrations in plasma and urine as a parameter for histamine release during anaphylactoid reactions (Keyzer et al). 1986; 78:20 (Abst. vol. 72)
**Pleural effusion**
Intestinal lymphangiectasia and bilateral pleural effusions: effect of dietary therapy and surgical intervention on immunologic and pulmonary parameters (Lester et al). 1986; 78: 891-7
**Plicatic acid–specific immunoglobulin E**
Plicatic acid–specific IgE and nonspecific bronchial hyperresponsiveness in western red-cedar workers (Vedal et al). 1986; 78:1103-9
**PMA**; *see* **Phorbol myristate acetate**
**Pneumococcal vaccine**
Pneumococcal vaccine efficacy in selected populations in the United States (Bolan et al). 1986; 78:6-7 (Abst. vol. 72)
**Pneumonitis**
Immunologic response to aerosols of affinity-purified antigen in hypersensitivity pneunonitis (Stricker et al). 1986; 78:411-6
**Pollen**
A double-blind placebo-controlled trial of polymerized whole grass administered in an accelerated dosage schedule for immunotherapy of grass pollinosis (Grammer et al). 1986; 78:1180-4
Multicenter, double-blind, placebo-controlled trial of terfenadine suspension in the treatment of fall-allergic rhinitis in children (Guill et al). 1986; 78:4-9
The preparation and testing of the proposed International Reference (IRP) Bermuda grass (*Cynodon dactylon*)-pollen extract (Baer et al). 1986; 78:624-31
Seasonal asthma in northern California: allergic causes and efficacy of immunotherapy (Reid et al). 1986; 78:590-600
A study of oak-pollen production and phenology in northern California: prediction of annual variation in pollen counts based on geographic and meterologic factors (Fairley and Batchelder). 1986; 78:300-7
A study of the human immune response to *Lolium perenne* (Rye) pollen and its components, *Lol p* I and *Lol p* II (Rye I and Rye II). I. Prevalence of reactivity to the allergens and correlations among skin test, IgE antibody, and IgG antibody data (Freidhoff et al). 1986; 78:1190-1201
Theophylline reduces histamine release during pollen-induced rhinitis (Naclerio et al). 1986; 78:874-6
**Pollinosis**
A double-blind placebo-controlled trial of polymerized whole grass administered in an accelerated dosage schedule for immunotherapy of grass pollinosis (Grammer et al). 1986; 78:1180-4
Multicenter, double-blind, placebo-controlled trial of terfenadine suspension in the treatment of fall-allergic rhinitis in children (Guill et al). 1986; 78:4-9
**Pollution**
Smoking and atmospheric pollution (Davies and Sheinman). 1986; 78:1031-5 (Symposium)
**Polyclonal immunoglobulin E**
A T cell activity that enhances polyclonal IgE production and its inhibition by interferon (Coffman and Carty). 1986; 78:26-7 (Abst. vol. 72)
**Polyethylene glycol**
Gastrointestinal permeability in atopic and nonatopic mothers assessed with different-sized polyethylene glycols (PEG 400 and PEG 1000) (Falth-Magnusson et al). 1986; 78:24 (Abst. vol. 72)
Polyethylene glycol–modified ragweed extract: comparison of two treatment regimens (Juniper et al). 1986; 78:851-6
**Polymorphonuclear leukocyte**
Therapeutic concentrations of theophylline and enprofylline potentiate catecholamine effects and inhibit leukocyte activation (Nielson et al). 1986; 78:660-7
**Polyp**
Microbiologic analyses of nasal polyp tissue (Dunnette et al). 1986; 78:102-8
**Polysaccharide antigen**
Recurrent sinupulmonary infection and impaired antibody response to bacterial capsular polysaccharide antigen in children with selective IgG-subclass deficiency (Umetsu et al). 1986; 78:12-3 (Abst. vol. 72)
**Polyvinyl alcohol**
Suppression of IgE and non-IgE antibodies to industrial chemicals by conjugates of polyvinyl alcohol (Wei et al). 1986; 78:1066-70 (Symposium)
**Position statement**
Position statement. 1986; 78:269-77
**Postgraduate course**
Postgraduate course. 1986; 78:825-47
**Postreceptor mechanism**
The relationship between acetylcholine-and histamine-induced constriction of large airways in normal subjects and subjects with asthma: a possible role for postreceptor mechanisms (Popa). 1986; 78:601-13
**Potassium bisulfite**
A critical evaluation of clinical trials in reactions to sulfites (Bush et al). 1986; 78:191-202 (Symposium)
**Potato**
Allergy to white potato (Castells et al). 1986; 78:1110-4
**Prausnit-Küstner reaction**
Positive skin tests and Prausnitz-Küstner reactions in metabisulfite-sensitive subjects (Yang et al). 1986; 78:443-9
Sunflower oil is not allergenic to sunflower seed sensitive patients (Halsey et al). 1986; 78:408-10
**Prednisone**
Effects of glucocorticoids on eosinophil colony growth (Butterfield et al). 1986; 78:450-7
Outcome of pregnancy in women requiring corticosteroids for severe asthma (Fitzsimons et al). 1986; 78:349-53
**Pregnancy**
Outcome of pregnancy in women requiring corticosteroids for severe asthma (Fitzsimons et al). 1986; 78:349-53
**Presidential address**
Presidential address. 1986; 78:253-68
**Presidents**
Listing of presidents of societies. 1986; 78:943-7
**Prevention**
Contact allergens and prevention of contact dermatitis (Fregert). 1986; 78:1071-2 (Symposium)
Efforts by the United States to coordinate the prevention of occupational allergic diseases in the workplace (Goldstein). 1986; 78:1086-8 (Symposium)
Prevention of allergic reactions to penicillin (Sogn). 1986; 78:1051-2 (Symposium)
Preventive measures in early childhood allergy (Michel et al). 1986; 78:1022-7 (Symposium)
**Progenitors**
Basophilic cell progenitors, nasal metachromatic cells, and peripheral blood basophils in ragweed-allergic patients (Otsuka et al). 1986; 78:365-71

**Prostaglandin**
Medications and their use in the treatment of adverse reactions to foods (Sogn). 1986; 78:238-43 (Symposium)
Prostaglandin $D_2$ and histamine release in cold urticaria (Heavey et al). 1986; 78:458-61
Therapeutic concentrations of theophylline and enprofylline potentiate catecholamine effects and inhibit leukocyte activation (Nielson et al). 1986; 78:660-7

**Protamine**
Protamine-induced fatal anaphylaxis (Sharath et al). 1986; 78:3 (Abst. vol. 72)

**Protease**
Detection of antibodies to proteases used in laundry detergents by the radioallergosorbent test (Dor et al). 1986; 78:877-86

**Provocation**
The effect of single and multiple dose therapy with azelastine on the immediate asthmatic response to allergen provocation testing (Ollier et al). 1986; 78:358-64
Proper application of available laboratory tests for adverse reactions to foods and food additives (Yunginger). 1986; 78:220-3 (Symposium)

***Psoroptes***
Cross-reactivity between the house dust mite *Dermatophagoides pteronyssinus* and the mange mites *Psoroptes cuniculi* and *P. ovis*. I. Demonstration of antibodies to the house dust mite allergen Dpt 12 in sera from *P. cuniculi*-infested rabbits (Stewart and Fisher). 1986; 78:293-9

**Psychiatric disorders**
Adverse reactions to foods: relevance to psychiatric disorders (Crayton). 1986; 78:243-50 (Symposium)

**Psychosomatic disorder**
Psychosomatic nasal disorder (Chandler and Patterson). 1986; 78:324-41

**Pulmonary disease**; see also **Respiratory disease**
Effect of disease states on theophylline elimination (Jenne). 1986; 78:727-35 (Symposium)
Increased concentrations of milk antibodies in recurrent pulmonary aspiration in infants and young children (Muller et al). 1986; 78:18 (Abst. vol. 72)
Intestinal lymphangiectasia and bilateral pleural effusions: effect of dietary therapy and surgical intervention on immunologic and pulmonary parameters (Lester et al). 1986; 78:891-7
Theophylline in chronic obstructive pulmonary disease (Sharp). 1986; 78:800-5 (Symposium)

**PY 108-068**
Bronchodilatation and attenuation of exercise-induced bronchospasm by PY 108-068, a new calcium antagonist (Ben-Dov et al). 1986; 78:14 (Abst. vol. 72)

**R**

**Radioallergosorbent test**
Detection of antibodies to proteases used in laundry detergents by the radioallergosorbent test (Dor et al). 1986; 78:877-86

**Radiocontrast media**
Comparison of histamine release effects of ionic and nonionic radiographic contrast media (Salem et al). 1986; 78:29 (Abst. vol. 72)

**Radiography**
Correlation between A-mode ultrasound and radiography in the diagnosis of maxillary sinusitis (Rohr et al). 1986; 78:58-61

**Radioimmunoassay**
Cross-reacting and species-specific determinants on a major allergen from *Dermatophagoides pteronyssinus* and *D. farinae*: development of a radioimmunoassay for antigen $P_1$ equivalent in house dust and dust mite extracts (Platts-Mills et al). 1986; 78:398-407
Proper application of available laboratory tests for adverse reactions to foods and food additives (Yunginger). 1986; 78:220-3 (Symposium)

**Ragweed**
Basophilic cell progenitors, nasal metachromatic cells, and peripheral blood basophils in ragweed-allergic patients (Otsuka et al). 1986; 78:365-71
Polyethylene glycol-modified ragweed extract: comparison of two treatment regimens (Juniper et al). 1986; 78:851-6

**Rectus sheath**
Rectus sheath hematoma complicating an exacerbation of asthma (Lee et al). 1986; 78:290-2

**Recurrent aphthous ulceration**
Serum antibody responses to indigenous oral mucosal antigens and selected laboratory-maintained bacteria in recurrent aphthous ulceration (Lindemann et al). 1986; 78:7 (Abst. vol. 72)

**Red wine**
Red wine asthma: a controlled challenge study (Dahl et al). 1986; 78:1126-9

**Red-cedar**
Plicatic acid–specific IgE and nonspecific bronchial hyperresponsiveness in western red-cedar workers (Vedal et al). 1986; 78:1103-9

**Reflex**
Nasal-sinus-pulmonary reflexes and bronchial asthma (McFadden ER). 1986; 78:1-3 (Editorial)

**Reflux**
Increase in gastroesophageal reflux during methacholine-induced bronchospasm (Moote et al). 1986; 78:619-23

**Respiratory disease**; see also **Pulmonary disease**
Effect of respiratory and other virus infections on IgE immunoregulation (Frick). 1986; 78:1013-8 (Symposium)
Lung immunology and its contribution to the immunopathogenesis of certain respiratory diseases (Reynolds). 1986; 78:833-47 (Leo H Griep, MD, Alumni Lecture)

**Retinitis pigmentosa**
Immune complexes in retinitis pigmentosa (Garcia-Calderon et al). 1986; 78:23 (Abst. vol. 72)

**Reviewers**
Acknowledgment to reviewers. 1986; 78:1202-4

**Rheumatoid arthritis**
IgE deposition in normal skin of patients with rheumatoid arthritis in relation to clinical and laboratory findings (De Clerck et al). 1986; 78:11 (Abst. vol. 72)

**Rhinitis**
Enhanced basophil histamine release to concanavalin A in allergic rhinitis (Busse et al). 1986; 78:90-7
Multicenter, double-blind, placebo-controlled trial of terfenadine suspension in the treatment of fall-allergic rhinitis in children (Guill et al). 1986; 78:4-9
Theophylline reduces histamine release during pollen-induced rhinitis (Naclerio et al). 1986; 78:874-6

**Rhinovirus**
Acute-phase decrease of T-lymphocyte subsets in rhinovirus infection (Levandowski et al). 1986; 78:27 (Abst. vol. 72)

**Rye**
A study of the human immune response to *Lolium perenne* (Rye) pollen and its components, *Lol p* I and *Lol p* II (Rye I and Rye II). I. Prevalence of reactivity to the allergens and correlations among skin test, IgE antibody, and IgG antibody data (Freidhoff et al). 1986; 78:1190-1201

**S**

**Schizophrenia**
Adverse reactions to foods: relevance to psychiatric disorders (Crayton). 1986; 78:243-50 (Symposium)

**Seafood allergy**
IgE sensitization in snow crab–processing workers (Cartier et al). 1986; 78:344-8

**Seasonal allergy**
Basophilic cell progenitors, nasal metachromatic cells, and peripheral blood basophils in ragweed-allergic patients (Otsuka et al). 1986; 78:365-71
Generation and partial characterization of eosinophil chemotactic activity and neutrophil chemotactic activity during early and late-phase asthmatic response (Metzger et al). 1986; 78:282-90
Multicenter, double-blind, placebo-controlled trial of terfenadine suspension in the treatment of fall-allergic rhinitis in children (Guill et al). 1986; 78:4-9
Seasonal asthma in northern California: allergic causes and efficacy of immunotherapy (Reid et al). 1986; 78:590-600
Seasonal variation in antigens of the imported fire ant *Solenopsis invicta* (Hannan et al). 1986; 78:331-6
A study of oak-pollen production and phenology in northern California: prediction of annual variation in pollen counts based on geographic and meterologic factors (Fairley and Batchelder). 1986; 78:300-7

**Sensitivity**; see also **Hypersensitivity**
Defined versus ill-defined syndromes associated with food sensitivity (May). 1986; 78:144-8 (Symposium)
Desensitization of experimental contact sensitivity (Mekori and Claman). 1986; 78:1073-81 (Symposium)
IgE sensitization in snow crab–processing workers (Cartier et al). 1986; 78:344-8

**Serum**
Cellular abnormalities in patients with elevated serum IgE levels (Geha and Leung). 1986; 78:995-9 (Symposium)
Clinical significance of day-night differences in serum theophylline concentration with special reference to Theo-Dur (Smolensky et al). 1986; 78:716-22 (Symposium)
Levels of IgE in serum from normal children and allergic children as measured by an enzyme immunoassay (Lindberg and Arroyave). 1986; 78:614-8
Myocardial specific creatine phosphokinase isoenzyme elevation in children with asthma treated with intravenous isoproterenol (Maguire et al). 1986; 78:631-6
Serum antibody responses to indigenous oral mucosal antigens and selected laboratory-maintained bacteria in recurrent aphthous ulceration (Lindemann et al). 1986; 78:7 (Abst. vol. 72)
Serum IgA antibodies to *Aspergillus fumigatus* in various stages of allergic bronchopulmonary aspergillosis (Gutt et al). 1986; 78:98-101
SIgD− and sIgD+ B cells responding to thymus-independent antigens have a different lymphokine requirement (Waldschmidt et al). 1986; 78:2 (Abst. vol. 72)
Serum IgE levels in patients with inflammatory bowel disease (Levo et al). 1986; 78:3-4 (Abst. vol. 72)

**Sinus**
Correlation between A-mode ultrasound and radiography in the diagnosis of maxillary sinusitis (Rohr et al). 1986; 78:58-61
Recurrent sinupulmonary infection and impaired antibody response to bacterial capsular polysaccharide antigen in children with selective IgG-subclass deficiency (Umetsu et al). 1986; 78:12-3 (Abst. vol. 72)

**Skeletal muscle**
Effect of theophylline on diaphragmatic and other skeletal muscle function (Aubier). 1986; 78:787-92 (Symposium)

**Skin**
IgE deposition in normal skin of patients with rheumatoid arthritis in relation to clinical and laboratory findings (De Clerck et al). 1986; 78:11 (Abst. vol. 72)
The morphologic characteristics of dry skin in atopic dermatitis (Uehara and Miyauchi). 1986; 78:12 (Abst. vol. 72)

**Skin test**
Decreased skin response to intradermal histamine in cancer patients (Burtin et al). 1986; 78:83-9
Predictive value of tests in childhood allergy (Bousquet and Kjellman). 1986; 78:1019-22 (Symposium)
Proper application of available laboratory tests for adverse reactions to foods and food additives (Yunginger). 1986; 78:220-3 (Symposium)

**Smoking**
Maternal smoking influences cord serum IgE and IgD levels and increases the risk for subsequent infant allergy (Magnusson). 1986; 78:898-904
Smoking and atmospheric pollution (Davies and Sheinman). 1986; 78:1031-5 (Symposium)

**Snow crab**
IgE sensitization in snow crab–processing workers (Cartier et al). 1986; 78:344-8

**Societies**
Listing of presidents of societies. 1986; 78:943-7

**Socioeconomic aspects**
Epidemiologic and socioeconomic aspects of allergic diseases (Massicot and Cohen). 1986; 78:954-8 (Symposium)

***Solenopsis invicta***
Seasonal variation in antigens of the imported fire ant *Solenopsis invicta* (Hannan et al). 1986; 78:331-6

**Spirometry**
Lack of acute effects of ascorbic acid on spirometry and airway responsiveness to histamine in subjects with asthma (Malo et al). 1986; 78:1153-8

**Splenectomy**
Response to immunization after partial and total splenectomy (Dawes et al). 1986; 78:17-8 (Abst. vol. 72)

**Sprue**
Gluten-sensitive enteropathy: a nonallergic immune hypersensitivity of the gastrointestinal tract (Strober). 1986; 78:202-11 (Symposium)

**Staphylococci**
Anti-*Staphylococcus aureus*–specific IgE in atopic dermatitis (Motala et al). 1986; 78:583-9
IgE antibodies to *Staphylococcus aureus*: prevalence in patients with atopic dermatitis (Friedman et al). 1986; 78:10 (Abst. vol. 72)
Staphylococcal colonization, infection, and atopic dermatitis—association not etiology (Hanifin and Homburger). 1986; 78:563-6 (Editorial)

**Status asthmaticus**
Comparison between high and moderate doses of hydrocortisone in the treatment of status asthmaticus (Raimondi et al). 1986; 78:25 (Abst. vol. 72)
Myocardial specific creatine phosphokinase isoenzyme elevation in children with asthma treated with intravenous isoproterenol (Maguire et al). 1986; 78:631-6
The use of halothane in the treatment of status asthmaticus (Bayliff et al). 1986; 78:26 (Abst. vol. 72)

**Steroids**
An improved protocol for the use of troleandomycin (TAO) in the treatment of steroid-requiring asthma (Wald et al). 1986; 78:36-43

**Substance P**
A critical evaluation of clinical trials in reactions to sulfites (Bush et al). 1986; 78:191-202 (Symposium)
Evidence for substance P-immunoreactive spinal afferents that mediate bronchoconstriction (Saria et al). 1986; 78:24 (Abst. vol. 72)

Positive skin tests and Prausnitz-Küstner reactions in metabisulfite-sensitive subjects (Yang et al). 1986; 78:443-9

**Sulfites**

A critical evaluation of clinical trials in reactions to sulfites (Bush et al). 1986; 78:191-202 (Symposium)

**Sunflower**

Sunflower oil is not allergenic to sunflower seed–sensitive patients (Halsey et al). 1986; 78:408-10

**Suppressor cell**

Helper and suppressor T cell subsets in 138 asthmatic children undergoing different therapeutic trials (Lison et al). 1986; 78:18 (Abst. vol. 72)

Induction of suppressor cells specific for AChR in experimental autoimmune myasthenia gravis (McIntosh and Drachman). 1986; 78:11-12 (Abst. vol. 72)

Natural killer cells in lungs and other tissues and regulation of their activity by suppressor cells (Herberman). 1986; 78:566-70 (Editorial)

**Sustained-release product**

Application of stable isotope methodology in the evaluation of sustained-release theophylline dosage forms (Koup et al). 1986; 78:752-4 (Symposium)

Clinical significance of day-night differences in serum theophylline concentration with special reference to Theo-Dur (Smolensky et al). 1986; 78:716-22 (Symposium)

The Contin delivery system: dosing considerations (Leslie). 1986; 78:768-73 (Symposium)

Erratic absorption of theophylline from slow-release products in children (Szefler). 1986; 78:710-5 (Symposium)

Selection of a slow-release theophylline product (Hendeles and Weinberger). 1986; 78:743-51 (Symposium)

**T**

**T cells**; see also **Lymphocyte**

Acute-phase decrease of T-lymphocyte subsets in rhinovirus infection (Levandowski et al). 1986; 78:27 (Abst. vol. 72)

Chronic urticaria, activated T cells, and mast cell releasability (Rosenstreich). 1986; 78:1099-102

Helper and suppressor T cell subsets in 138 asthmatic children undergoing different therapeutic trials (Lison et al). 1986; 78:18 (Abst. vol. 72)

Studies of the cellular infiltrate of chronic idiopathic urticaria: prominence of T-lymphocytes, monocytes, and mast cells (Elias et al). 1986; 78:914-8

T cell reactivity to penicillin: phenotypic analysis of in vitro activated cell subsets (Koponen et al). 1986; 78:645-52

**TAO**; see **Troleandomycin**

**Tartrazine**

Adverse reactions to tartrazine (Stevenson et al). 1986; 78:182-91 (Symposium)

**Terfenadine**

Multicenter, double-blind, placebo-controlled trial of terfenadine suspension in the treatment of fall-allergic rhinitis in children (Guill et al). 1986; 78:4-9

**Theo-Dur**

Absorption of Theo-Dur Sprinkle with food: importance of types of meals and medication times (Pedersen). 1986; 78:653-60

Clinical significance of day-night differences in serum theophylline concentration with special reference to Theo-Dur (Smolensky et al). 1986; 78:716-22 (Symposium)

Effects of food on the absorption of theophylline in children (Pederson). 1986; 78:704-9 (Symposium)

**Theophylline**

Absorption of Theo-Dur Sprinkle with food: importance of types of meals and medication times (Pedersen). 1986; 78:653-60

Adverse effects of theophylline–beta agonist interactions (Nicklas and Balazs). 1986; 78:806-11 (Symposium)

Aminophylline exposure alters mouse bone marrow–derived mast cell adenosine responsiveness (Marquardt et al). 1986; 78:462-9

Application of stable isotope methodology in the evaluation of sustained-release theophylline dosage forms (Koup et al). 1986; 78:752-4 (Symposium)

Clinical significance of day-night differences in serum theophylline concentration with special reference to Theo-Dur (Smolensky et al). 1986; 78:716-22 (Symposium)

The Contin delivery system: dosing considerations (Leslie). 1986; 78:768-73 (Symposium)

Development of safer xanthine drugs for treatment of obstructive airways disease (Persson). 1986; 78:817-24 (Symposium)

Dose-dependent kinetics of theophylline (Lesko). 1986; 78:723-7 (Symposium)

Effect of disease states on theophylline elimination (Jenne). 1986; 78:727-35 (Symposium)

Effect of theophylline on diaphragmatic and other skeletal muscle function (Aubier). 1986; 78:787-92 (Symposium)

Effects of food on the absorption of theophylline in children (Pederson). 1986; 78:704-9 (Symposium)

Effects of food on the bioavailability of theophylline from controlled-release products in adults (Karim). 1986; 78:695-703 (Symposium)

Erratic absorption of theophylline from slow-release products in children (Szefler). 1986; 78:710-5 (Symposium)

Estimation of theophylline absorption rate by means of the Wagner-Nelson equation (Wagner). 1986; 78:681-8 (Symposium)

Extrapulmonary effects of maintenance therapy with theophylline and inhaled albuterol in patients with chronic asthma (Joad et al). 1986; 78:1147-53

Formulation of controlled-release products (Robinson and Gauger). 1986; 78:676-81 (Symposium)

Kinetics of drug action: an overview (Levy). 1986; 78:754-61 (Symposium)

Opening remarks on symposium: update on theophylline (Grant and Ellis). 1986; 78:669 (Symposium)

Overview of effects of theophylline (Persson). 1986; 78:780-7 (Symposium)

Pharmacologic effects of theophylline in the newborn (Aranda et al). 1986; 78:773-80 (Symposium)

Physiologic considerations in drug absorption from the gastrointestinal tract (Golub et al). 1986; 78:689-94 (Symposium)

Relationships between adenosine, cyclic nucleotides, and xanthines in asthma (Church et al). 1086; 78:670-5 (Symposium)

Selection of a slow-release theophylline product (Hendeles and Weinberger). 1986; 78:743-51 (Symposium)

Theophylline improves global cardiac function and reduces dyspnea in chronic obstructive lung disease (Matthay and Mahler). 1986; 78:793-9 (Symposium)

Theophylline in chronic obstructive pulmonary disease (Sharp). 1986; 78:800-5 (Symposium)

Theophylline reduces histamine release during pollen-induced rhinitis (Naclerio et al). 1986; 78:874-6

Theophylline-induced hypercalcemia (McPherson et al). 1986; 78:30 (Abst. vol. 72)

Therapeutic concentrations of theophylline and enprofylline potentiate catecholamine effects and inhibit leukocyte activation (Nielson et al). 1986; 78:660-7

Therapeutic consequences of drug interactions with theophylline pharmacokinetics (Jonkman). 1986; 78:736-42 (Symposium)

Therapeutic effect and dosing strategies for theophylline in the treatment of chronic asthma (Weinberger and Hendeles). 1986; 78:762-8 (Symposium)

Treatment of theophylline intoxication (Goldberg et al). 1986; 78:811-7 (Symposium)
The use of a single daily theophylline dose and metered-dose albuterol in asthma treatment (Busse et al). 1986; 78:577-82

**Thymus**
The neuroendocrine thymus: coexistence of oxytocin and neurophysin in the human thymus (Geenau et al). 1986; 78:13-4 (Abst. vol. 72)
SIgD− and sIgD+ B cells responding to thymus-independent antigens have a different lymphokine requirement (Waldschmidt et al). 1986; 78:2 (Abst. vol. 72)

**T-lymphocyte** see **T cell**

**Tolerance**
Induction of immunologic tolerance: desensitization to occupational allergens (Turk et al). 1986; 78:1082-5 (Symposium)

**Tolmetin**
Anaphylactoid reactions to tolmetin after interrupted dosage (Bretza and Novey). 1986; 78:19 (Abst. vol. 72)

***Triatoma***
Identification and partial purification of species-specific allergens from *Triatoma protracta* (Heteroptera:Reduviidae) (Chapman et al). 1986; 78:436-42
Species-specific allergens from the salivary glands of Triatominae (Heteroptera:Reduviidae) (Marshall et al). 1986; 78:430-5

**Trimethoprim-sulfamethoxazole**
Oral desensitization to trimethoprim-sulfamethoxazole in a patient with acquired immunodeficiency syndrome (Finegold). 1986; 78:905-8

**Troleandomycin**
An improved protocol for the use of troleandomycin (TAO) in the treatment of steroid-requiring asthma (Wald et al). 1986; 78:36-43

U

**Ulcer**
Serum antibody responses to indigenous oral mucosal antigens and selected laboratory-maintained bacteria in recurrent aphthous ulceration (Lindemann et al). 1986; 78:7 (Abst. vol. 72)

**Ultrasound**
Correlation between A-mode ultrasound and radiography in the diagnosis of maxillary sinusitis (Rohr et al). 1986; 78:58-61

**Unproven procedures**
Unproven procedures for diagnosis and treatment of allergic and immunologic diseases (Anderson et al). 1986; 78:257-7 (Position statement)

**Upper airway obstruction**
Nocturnal enuresis in children with upper airway obstruction (Weider and Hauri). 1986; 78:18-9 (Abst. vol. 72)

**Urine**
Immunologic and biochemical properties of the major mouse urinary allergen (Mus m 1) (Lorusso et al). 1986; 78:928-37
Measurement of N'-methylhistamine concentrations in plasma and urine as a parameter for histamine release during anaphylactoid reactions (Keyzer et al). 1986; 78:20 (Abst. vol. 72)

**Urticaria**
Adverse reactions to tartrazine (Stevenson et al). 1986; 78:182-91 (Symposium)
Aspartame-induced urticaria (Kulczycki). 1986; 78:13-4 (Abst. vol. 72)
Chronic urticaria, activated T cells, and mast cell releasability (Rosenstreich). 1986; 78:1099-102
Clinical characteristics of cold-induced systemic reactions in acquired cold urticaria syndromes: recommendations for prevention of this complication and a proposal for a diagnostic classification of cold urticaria (Wanderer et al). 1986; 78:417-23
Combined cold-and heat-induced cholinergic urticaria (Farnam et al). 1986; 78:353-7
Increased compound 48/80 induced local histamine release from nonlesional skin of patients with chronic urticaria (Bédard et al). 1986; 78:1121-5
Positive skin tests and Prausnitz-Küstner reactions in metabisulfite-sensitive subjects (Yang et al). 1986; 78:443-9
Prostaglandin $D_2$ and histamine release in cold urticaria (Heavey et al). 1986; 78:458-61
Studies of the cellular infiltrate of chronic idiopathic urticaria: prominence of T-lymphocytes, monocytes, and mast cells (Elias et al). 1986; 78:914-8
The treatment of mild to severe chronic idiopathic urticaria with astemizole: double-blind and open trials (Fox et al). 1986; 78:1159-66

V

**Vaccine**
Anti-idiotypic antibody vaccine for type B viral hepatitis in chimpanzees (Kennedy et al). 1986; 78:5-6 (Abst. vol. 72)
Effect of disease states on theophylline elimination (Jenne). 1986; 78:727-35 (Symposium)
Immunity against diphtheria 25 to 30 years after primary vaccination in childhood (Kjeldsen et al). 1986; 78:1-2 (Abst. vol. 72)
Pneumococcal vaccine efficacy in selected populations in the United States (Bolan et al). 1986; 78:6-7 (Abst. vol. 72)
Therapeutic consequences of drug interactions with theophylline pharmacokinetics (Jonkman). 1986; 78:736-42 (Symposium)

**Vasopermeability**
Conjunctival immediate hypersensitivity: reevaluation of histamine involvement in the vasopermeability response (Woodward et al). 1986; 78:23 (Abst. vol. 72)

**Venom**
Allergens in Hymenoptera venom XVI: studies of the structures and cross-reactivities of vespid venom phospholipases (Hoffman). 1986; 78:337-43
Combined active and passive immunotherapy in honeybee-sting allergy (Müller et al). 1986; 78:115-22
Lack of responsiveness of beekeeper mononuclear cells to in vitro stimulation with pure bee venom (Lomnitzer and Rabson). 1986; 78:25-30
Seasonal variation in antigens of the imported fire ant *Solenopsis invicta* (Hannan et al). 1986; 78:331-6

**Verapamil hydrochloride**
Interaction of verapamil hydrochloride and atropine sulfate on histamine-induced bronchoconstriction (Krivoy et al). 1986; 78:4 (Abst. vol. 72)

**Vespid**
Allergens in Hymenoptera venom XVI: studies of the structures and cross-reactivities of vespid venom phospholipases (Hoffman). 1986; 78:337-43

**Virus**
Allergy and the syndrome of chronic Epstein-Barr virus infection (Welliver). 1986; 78:278-81 (Editorial)
Anti-idiotypic antibody vaccine for type B viral hepatitis in chimpanzees (Kennedy et al). 1986; 78:5-6 (Abst. vol. 72)
Correlation between allergy and persistent Epstein-Barr virus infections in chronic-active Epstein-Barr virus–infected patients (Olson et al). 1986; 78:308-14
Effect of disease states on theophylline elimination (Jenne). 1986; 78:727-35 (Symposium)
Effect of respiratory and other virus infections on IgE immunoregulation (Frick). 1986; 78:1013-8 (Symposium)

Specific allergen-induced Epstein-Barr nuclear antigen–positive B cells from patients with chronic-active Epstein-Barr virus infections (Olson et al). 1986; 78:315-20

W

**Wagner-Nelson equation**

Estimation of theophylline absorption rate by means of the Wagner-Nelson equation (Wagner). 1986; 78:681-8 (Symposium)

**Wheat**

Detection of proteins in wheat flour extracts that bind human IgG, IgE, and mouse monoclonal antibodies (Theobald et al). 1986; 78:470-7

Gluten-sensitive enteropathy: a nonallergic immune hypersensitivity of the gastrointestinal tract (Strober). 1986; 78:202-11 (Symposium)

**White potato**

Allergy to white potato (Castells et al). 1986; 78:1110-4

**Wine**

Red wine asthma: a controlled challenge study (Dahl et al). 1986; 78:1126-9

**Workplace**; see **Occupational allergy**

X

**Xanthines**

Development of safer xanthine drugs for treatment of obstructive airways disease (Persson). 1986; 78:817-24 (Symposium)

Relationships between adenosine, cyclic nucleotides, and xanthines in asthma (Church et al). 1986; 78:670-5 (Symposium)

Y

**Yoga**

Yoga for bronchial asthma: a controversial story (Nagaranthna and Nagenora). 1986; 78:9 (Abst. vol. 72)
